ANTIOCH, ILLINOIS, THURSDAY, JANUARY 20, 1927.

No. 21

## DEATH CLAIMS

### AGED PIONEER

Lewis A. Paddock Died Friday at Daughter's Home in Chicago.

#### CAST FIRST VOTE FOR LINCOLN

Lewis A. Paddock, an aged and highly respected pioneer resident of this locality, passed away at the home of his daughter in Chicago on Friday, after an illness of short duration. Mr. Paddock had been in his usual good health until a few days before he passed away, being confined to his bed only one day. The cause of his death being a general breakdown due to a complication of diseases common to old age.

Lewis A. Paddock was born in Milwaukee, Wis., on May 14, 1838, and passed away on Friday, January 14, 1927, at the age of 88 years and 9 months.

#### Resident Here 87 Years.

He came with his parents to Illinois when two years of age and settled near Bluff Lake, where he had made his home up to the time of his death. For the past two years Mr. Paddock spent the winter months in Chicago at the home of his daughter, returning to the home of his son, Irving, to spend the summer.

In the year 1861 he was married to Mary H. Savage and to this union five children were born, four of whom are left to mourn his loss. His wife passed away in 1895. In 1896 he was married to Mrs. Valina Hamaker, who preceded him in death in 1913.

#### Cast First Vote for Lincoln.

From youth Mr. Paddock has been an ardent lover of such sports as hunting and fishing and in his earlier days he had ample opportunity to indulge in these sports. He was a pioneer resident of the lake region and the first to engage in the summer resort business in this locality. The first vote Mr. Paddock cast was for Abraham Lincoln, for President.

He is survived by three daughters; Mrs. C. R. Delaney, Winfield, Ala.; Mrs. Nettie Frazier, Evanston, Mrs. Hattie Eastman, of Chicago, and one son, Irving Paddock, of Antioch, also several grandchildren and great grandchildren, besides a large number of old friends who will greatly miss him.

The funeral services were held at the Methodist church at Antioch on Sunday afternoon with Rev. A. M. Krahli officiating. Burial was at the Antioch Hillside cemetery.

## FARM BUILDING

### EXPERTS TO BE HERE ON MONDAY

D. Q. Grabill, head of the Educational Department of the James Manufacturing Company of Fort Atkinson, Wisconsin, will be the principal speaker at the Monday evening session of the Dairy Evening School that is being conducted each Monday evening at the Antioch Township High School. The school opens at 7:30. An architect of the company is to accompany Mr. Grabill.

As Mr. Grabill has a very interesting theme that will be of interest to all, the people are asked to bring their families with them. Mr. Grabill has spoken at over 100 meetings the past few years and has always attracted large audiences of 200 to 500 people.

Antioch dairymen and their families should make every effort to hear what promises to be perhaps the best meeting of the year. Bring the children and the ladies. No admission charge.

Last Monday evening Mr. Hayne talked to a large group of farmers and young men on the subject of "General Dairying."

#### STATE TAX IS CUT 20 CENTS

The tax that will be payable this spring will be 65 cents on the \$100 instead of 85 cents as a year ago, according to the state tax schedule received by County Clerk Lew A. Hendee from Gov. Len Small last week.

## Wilcox-Grice Case is Settled Out of Court

A satisfactory settlement of the Wilcox-Grice case, involving \$2,000 in connection with the purchase of the building now occupied by the Antioch postoffice, was agreed upon Tuesday at Waukegan, the settlement having been adjusted out of court, according to reports. Details of the transaction, settlement of which has been pending for about three years, are quite well known, and many Antioch witnesses had been subpoenaed to testify at the hearing of the case.

The \$2,000 involved represented the full payment received from Mrs. Wilcox three years ago for the real estate upon which the post-office building was then in course of construction, the balance of the purchase price to be paid upon completion of the building. Due to difficulties regarding building specifications, the building was not accepted, neither did Mr. Grice refund the \$2,000 first payment. Thus matters stood until a final settlement was reached Tuesday.

#### VALUES NAME

AT \$50,000

Lake Villa Woman Asks Damages For Alleged Character Defamation.

The principle of a suit for \$50,000 in which Lake Villa people are the principals, was filed Thursday in the Circuit court. Nettie Leonard, who lives in the Belmonte apartments at Lake Villa is the plaintiff and is represented by State's Attorney A. V. Smith. The defendant is George V. Cordingley.

The declaration, according to Col. Smith will charge Cordingley with defamation of character. A principle in this matter was filed last June, but due to a technicality relative to the filing of the declaration, it was necessary to file a new principle.

Col. Smith says the declaration will charge that Cordingley spread false propaganda in and around the village of Lake Villa for the purpose of ruining the character of Mrs. Leonard. He is alleged to have spread stories that she was a woman of ill repute and had been intimate with several men. Col. Smith says. These charges are to be made against him in the declaration, according to Mr. Smith.—Waukegan Daily News.

#### SUPERVISORS TO ASK GOVERNOR TO PAVE TWO HIGHWAYS

Delegation Left on Tuesday for Springfield to State Preferences.

#### PADDOCK HEADS BODY

Delegation from the board of supervisors left Tuesday for Springfield where they will go into conference with Gov. Len Small regarding possibilities of state and road building in Lake county for 1927.

Those who will make the trip are Chairman Ray Paddock, Supervisors George Bahrstow and William J. Obee, County Superintendent of Highways R. M. Lobdell and County Clerk Lew A. Hendee.

They have two routes in mind that they hope the state will pave this spring. One is the continuation of Grand avenue, at Lehman's corner, near Fox Lake, to the Helvidere road to the south. This would bring the road in near Volo. The second is the Wauconda-Mundelein road that would connect in at Crystal Lake, McHenry county.

The governor will be asked if the state has any preferences in paving for Lake county under the \$100,000,000. If not these two routes will be suggested.

Supervisor Bahrstow states that some inquiry may be made as to when the county will receive its \$500,000 road refund.

—Waukegan Sun.

Checks, with the name of Louis Mills forged to them, aggregating \$45 were the means Saturday of Irving G. Smith, 23, Libertyville farm hand, being bound over to the grand jury in bonds of \$1,000 by Justice O. A. Newson, of Libertyville. Smith's only explanation, the justice said, was that he was hard up.

## PRODUCTION PROBLEM DELAYS DAIRY ACTION

Existing Contracts Prove Stumbling Block—Producers to Seek Release.

#### NEED 20,000 POUNDS DAILY

Dairymen of Antioch district are awaiting with keen interest the report of a committee of producers appointed Wednesday to interview Bowman Dairy Co. officials regarding milk contracts for 1927. With the re-opening of the Antioch plant still veiled in uncertainty at the beginning of this year, practically all producers were forced to sign contracts to be sure of a market for their products.

Now that the farmers have a chance to see the re-opening of the local plant, the signed contracts are proving to be a stumbling block, and they are anxious to ascertain their exact status regarding the signed documents. It is understood that in case a contract is broken by the producer, he will receive no more than butterfat price for milk delivered under the new contract, or about twenty cents per hundred pounds less than the fluid milk price. In many cases this will not worry local producers who are paying about that amount for long distance delivery.

#### Joannes Ready to Go.

H. R. Joannes, Chicago jobber and dealer, was again present at the dairymen's meeting at the Danish Hall Wednesday evening, and reiterated his remarks of a week ago regarding his desire to take over the operation of the Antioch plant on a lease basis, paying the owners of the property a good return on their investment.

Twenty thousand pounds daily production is needed to make the operation of the plant here profitable, the building can be purchased and producers are ready to take the stock, it was learned at the meeting. Converted action on the part of the producers will assure the re-opening of the plant here if they can see their way clear to adjust the 1927 contracts they have signed with the dealers. The option for the purchase of the local plant from the Broxham Dairy Co. will expire Feb. 17.

The committee's report will be heard at the next meeting to be held Wednesday night at the Danish Hall, Antioch. Dairymen are urged to attend.

#### WILMOT MAN CELEBRATES NINETY-FIRST BIRTHDAY

H. F. Reynolds celebrated his ninety-first birthday, January fourteenth at his home in Randall, Mr. Reynolds has long been a resident of Randall and Wilmot, for the born in Cambridge, Washington county, New York and married there to Caroline Tefft, of Greenwich, New York, they with two children came to Wisconsin in 1865. For many years they made their home on the Reynolds farm in Randall township, but after the death of Mrs. Reynolds he built a home in Wilmot and lived there several years with his daughter Susan Reynolds. Three years ago in order to be near his son Oliver and his family, and to be back on the farm he loved, he erected a cottage opposite the original farm home, occupied by Oliver Reynolds, and moved back.

Mr. Reynolds was long a member of the Randall Town Board and took a great interest in all progressive movements in the community. He still retains an active interest in all public affairs and is enjoying excellent health.

## FEUTZ LOW BIDDER ON FOX LAKE ROAD

Rochester, Ind., Firm's Figure Was \$107,010.29.

#### MILEAGE COST TO BE \$23,000.

State Highway number 59, the Fox Lake-Antioch section of 4.55 miles, is to cost \$107,010.29, or approximately \$23,000 per mile, according to the bid placed with the state highway department by the F. C. Feutz Company of Rochester, Ind. Bids were opened Monday at Springfield on 136 miles of Illinois roads to be constructed this year under the \$100,000,000 bond issue. The Lake county piece was opened second, the first job let being a half mile string in DeWitt county.

The Lake county piece to be paved will connect with Grand avenue at Lehman's corner and extend north to Antioch, connecting with route number 21.

Feutz is the contractor building Greenway road. This job, started last September, is more than half done in spite of the bad weather experienced last fall. He has two paving units nearby. It is understood, and could be able to start both jobs early in the spring rather than waiting until the Greenway road was completed.

#### WOMAN'S CLUB TO GIVE CARD PARTIES

The first of a series of card parties to be held in private homes will be given by the Woman's Club at the home of Mrs. G. W. Jensen on Tuesday afternoon, January 25th, beginning at 2 o'clock sharp. Mrs. Allner and Mrs. King will be assistant hostesses. 500 will be played and there will be the usual charge of thirty-five cent per player.

Here is a wonderful opportunity for spending an enjoyable afternoon and at the same time helping to swell the building fund of the Woman's club.

#### NINE COUPLES ENJOY SLEIGH RIDE PARTY

Leaving dull care behind them, nine Antioch couples greatly enjoyed a sleigh ride party Monday night to Mr. and Mrs. Nixon's Lake Bluff home five miles southwest of town, where Mr. and Mrs. Fred Loof had prepared hot coffee and waffles. After spending several hours playing old fashioned school games and ransie the crowd departed for home on the big sled behind J. H. Drom's trimmy team of greys. The attempt to stage a come back to the happy days of youth was not so pathetic as it proved to be entertaining. Someone even started the song "School Days" When We Were a Couple of Kids," but—to make a long story short, the crowd went for a good time, and they had it. Among those present were: Rev. and Mrs. Krahli, Mr. and Mrs. John Horan, Mr. and Mrs. S. Boyer Nelson, Mr. and Mrs. F. Peters, Mr. and Mrs. H. B. Gaston, Mr. and Mrs. J. Wilson McGee, Mr. and Mrs. Robert Macke, Mr. and Mrs. John C. Nixon and Mr. and Mrs. L. R. Watson.

#### COUNTY LEGION MEN MEET AT GRAYSLAKE

State Commander Watkins Chief Speaker at Dinner Tuesday evening.

Thirteen Legionaires of Antioch attended the annual meeting and dinner held at Legion Hall, Grayslake, Tuesday evening. About every post in the county was represented and a large number was present. The principal speaker of the evening was State Commander Ferre C. Watkins, of Chicago, who in a very fine address told the Legion just what was being accomplished in the membership drive. Robt. P. Oullic, Vice Commander of the 8th District, of North Chicago, and Service Officer Lester R. Henson, of Chicago, were also present and addressed the Legion men.

Both Antioch and Grayslake are 100 per cent posts in point of renewal memberships for 1927. Grayslake reaching the quota first with the Antioch post a close second.

Convention at Rockford.

The eighth district convention will be held at Rockford, January 29 and 30. Many Lake county men are planning to attend.

## Donald Tyler Wins Wilmot Ski Meet

The Skager Rack Ski Club of Wilmot held its annual tournament at the Hegeman Hill, the highest point in the bluffs south of the village, on Sunday afternoon. From twelve to twenty contestants were entered for the meet. The hill used has a natural slide and jump a hundred and twenty-five feet in length and now that the membership of the club is increasing so rapidly the officials in the organization plan the erection of a jumping trestle and a club house in the near future.

Donald Tyler won Sunday's meet and was awarded the medal. Donald Herriek was a close second and Sandy McDougall won an award for persistence. Others deserving mention were: Harry Hazelman, Roland Hegeman, Irving Carey, Kermit Shreck, Leland Hegeman and John Hartman. A regular schedule of events had been prepared for the afternoon and the meet proved so very successful that several more are planned for the near future.

## Death Summons Aged Lake County Resident

John Irving Died at Late Home Tuesday—Eleven Children Survive.

John Irving, an old resident of Lake county and who operated a farm near Antioch for more than 40 years, died at his home Tuesday morning after an extended period of illness. He was 73 years of age.

The deceased was born in Kenosha April 14, 1853, and came to this county with his parents, Mr. and Mrs. Thomas A. Irving, when a small boy.

He was one of the most highly respected residents of the section of the county in which he lived.

His wife and eleven out of twelve children born to the couple survive. The deceased was married to Miss Caroline Bruner in Essex county, Ontario, Canada, on January 27, 1876.

The surviving children are: Mrs. Lizzie Trotter, Madison, South Dakota; John L. Irving, of Wadsworth; Mabel Irving Patton, of Amarillo, Tex.; Sadie Sevey, of Kenosha; Isabelle Summer, of Medford, Ore.; Carrie Shirley, of Jannis, South Dakota; Jennie Salisbury, of Waukegan; Irma Schmid, of Waukegan; Mrs. George Rychmann, of Waukegan; McAlister Irving, of Antioch, and Warren A. Irving, of Waukegan. One son, Thomas A. Irving, died in South Dakota, last summer, the first death in the family.

Three sisters, Mrs. Lizzie Lieber, of Binghamton, N. Y.; Mrs. Mary Melville, of Kenosha; and Mrs. Sarah Mathilda Tobin, of Waukegan, also survive.

Funeral services in charge of the Masonic Order will be held at the Millburn Congregational church at 1:30 o'clock Thursday afternoon, with Rev. S. W. Chidester officiating. Services at the grave will be in charge of the Antioch lodge of A.F. & A.M., of which he has been a member for the past 25 years. Interment will be made in Millburn cemetery.

#### WOMAN'S CLUB NOTES

About twenty-five members of the Woman's Club were present on Monday at the meeting held at the home of Mrs. Kuttli. On account of the bad condition of the road between Waukegan and Antioch, Mrs. Funk was unable to get here to give her talk, but in spite of that disappointment, a peppy business meeting was held and much work accomplished. Following the business session, Miss Chard, of Libertyville, entertained with several well chosen solos which were much enjoyed by all present.

Refreshments, consisting of sandwiches, coffee and cake were served at the close of the program and these also seemed to be enjoyed greatly, judging by the rapid rate of their disappearance.

It was a most enjoyable afternoon and the club appreciated the kindness and hospitality of Mrs. Kuttli and hopes to be invited again.

## HUNDREDS TO HEAR PLAN PROGRESS

Annual Dinner of Regional Planning Association, January 26, to Feature Realtors' Cooperation in Regional Plan Projects.

More than six hundred state, county, city and village officials and real estate operators of the Region of Chicago have made plans to take part in the Fourth Annual Dinner of the Regional Planning Association Wednesday evening, January 26, at the Hotel LaSalle, Chicago.

Perkins to Describe Regional Planning in Europe.

Dwight H. Perkins, of Evanston, who, with Prof. Charles E. Merriam, of the University of Chicago, represented the Regional Planning Association of Chicago at the International Town Planning Conference in Vienna last summer will give a brief report on the progress of city and regional planning in Europe.

#### Realtors Advance Regional Plan.

Heads of real estate firms, and particularly officers of Real Estate Boards throughout the Region, are to be on hand to hear the 1926 accomplishments in Regional planning for which they are responsible in large measure. Robert Kingery, Secretary of the Association, will relate the experiences of the Regional planners during 1926.

#### Eleven Hundred Acres Dedicated to Wide Roads.

Subdividers have dedicated almost 1150 acres of land in excess of the usual acreage given up to streets, as a result of the Regional Plan activities, in holding broad rights of way for the main highways which are fast becoming the major street system of the Region.

The ordinary dedications would have been 66 feet wide, for all streets, but on all main state, county and section line roads, the developers have given a total of 180 miles of 100 foot right of way, an excess of 24 feet; and on the half section line roads they have dedicated nearly 200 miles of 80 foot right of way, an excess of 14 feet. This excess, totaling almost 1150 acres of land, is the voluntary gift of the subdividers in the interest of the Regional Plan. Had these streets and highways been platted only 66 feet wide, and later, when built up, widened as so many Chicago streets have been, the cost would have been tremendous.

#### Region of Chicago Leads in Zoning.

With 52 municipalities now administering zoning ordinances in the Region, the Chicago metropolitan area has a larger percentage of communities zoned than is the case in any other part of the country. City and village officials, particularly, will be interested in the facts about zoning, and the amount of business property required by each community, which Mr. Kingery will bring out.

#### Three State Super Highway.

A large part of the right of way for the Three State Boulevard, 150 miles in length, from Milwaukee around Chicago to LaPorte and Michigan City is promised free of charge, by the owners of property along its route.

#### Lantern Slides to Picture Regional Planning Progress.

Colored lantern slides will be shown, giving population forecasts for Region, highway systems, zoning facts and many other interesting records of what the Regional Planning Association is doing and has accomplished to date.

## FORMER RESIDENT OF COUNTY DIES

Wilson King, aged 78 years and a former resident of Lake county have spent many years of his life in the Hickory district died in Burbank, Cal., yesterday according to word received by relatives Wednesday.

The deceased was born in New York state and came here when a small boy. Six children survive. They are: Mrs. George De Forrest, Mrs. Lee Savage, of Montana; Emmet King of Hickory; B. O. King, of Chicago; L. S. Kink, of St. Paul, and Mrs. H. J. Wheeler, of Springfield, Ill. Body will arrive here Saturday.

## Trevor News

Best Buy For The Money: Pens, Cans, String Beans, 15c per can. Cold Meats, Fruits and Vegetables at The Antioch Cash & Carry Grocery.

The farmers institute held a two days session at Social Center hall on Tuesday and Wednesday of last week. There was a good attendance both days. County agent E. V. Ryall, Mr. Cole and Mr. Vaughn, of Madison, were the speakers, the following subjects were discussed: Better milk, quality products, co-operative marketing of farm products, treating seed potatoes, phosphate for farm soil, cabbage and onion diseases. The speaker left some valuable information with the farmers. A fine program on Tuesday evening was enjoyed by a full house. Prof. Minder and his band from Wilmet high school gave several instrumental and vocal selections. Mrs. Wilber Lewis, of Silver Lake, sang "Little boy blue," and "Cuckoo."

Men, first: Mr. Arthur Bushing; second, Mr. Joseph Smith. Bingo, ladies first, Mrs. Frank Moran, second Evelyn Zmerly. Boys, Raymond Hayward, second Russell Longman.

Brick Ice Cream, Assorted Flavors, Will Keep Hard One Hour, 25c Pint. Brick at Nixon's Candy Shop, Antioch.

On account of the severe cold there was a small attendance at the P. T. A. meeting at Social Center hall on Friday evening.

The Modern Woodmen held a special meeting at Social Center hall on Wednesday evening.

Mrs. Edw. Butterick and daughter, of Waukegan, passed one evening last week with the former's cousins the Ira Brown family.

## Lake Villa News

Lloyd Atwell is quarantined at his home west of town with scarlet fever, but it doing quite well. He has been attending high school at Antioch, and no other cases have been reported.

Everything at Chain Store Prices. Fruits, vegetables, cold meats at The Antioch Cash & Carry Grocery. Mrs. Rush Hussey started last Thursday for Florida to remain until warm weather. Her parents, Mr. and Mrs. Wm. Weber visited at her home during her stay.

Rush E. Hussey has gone on a business trip to California, Washington and Oregon with a party of lumber dealers.

The losing side in the recent selling contest of the Ladies' Aid, headed by Mrs. Madsen, entertained the winners headed by Mrs. Tweed, at the home of Mrs. Madsen on Wednesday afternoon. This is only the first of a number of delightful social gatherings sponsored by the Ladies' Aid.

Mrs. Chas. Jarvis has gone to Chicago to spend the remainder of the winter with her daughter there.

Norma Keller is in the Victory Memorial Hospital for treatment which it is hoped will be very beneficial.

The surrounding roads were blocked with snow last week, and not until Monday was traffic possible on Grand Ave., to Waukegan. Up to that time Waukegan travelers went

Fannie May Candy, Ice Cream Soda at Nixon's Candy Shop, Antioch.

by way of Grayslake on Belvidere road which had been cleared earlier.

Russell Boehm is home again after a short stay in Chicago.

Our local garage men did a good business during the last week in thawing out frozen radiators and selling alcohol for filling them.

Mr. and Mrs. Marvin Dixon, of Waukegan, called at Harold Dixon's on Saturday.

Harold Dixon was in Waukegan on business Tuesday of this week.

Harold Cribb, of Waukegan, spent Sunday with his parents here.

Mrs. Riney went to Chicago last week and will spend some time with her daughter and family there.

Mrs. Carl Miller is much improved.

The Royal Neighbors and Woodmen will hold installation of officers at the hall on Tuesday evening, Jan. 25th. All members of each order please take notice.

The furnace at the church was in such condition that it was necessary to tear it down, and a new one is being installed in its place, so Sunday school and short services have been held at the schoolhouse for the last two Sundays. It will not be possible to have the furnace ready for next Sunday, so very likely services will be at the schoolhouse unless further notice is given. It is hoped that by the following Sunday the church may be heated.

## Three Holy Lands

Holy land is the name given by Christians to Palestine. Mohammedans, however, consider Arabia, the birthplace of Mohammed, the Holy land, while Buddhists call India, the country of Sakya Muni, the Holy land.

## Alphabet Revision

The movement to revise the alphabet would receive more general support if it were understood that hereafter the letter indicating the first person singular will not be found.—Indianapolis News.

## Always Open Question

Is not marriage an open question, when it is alleged, from the beginning of the world, that such as are in the institution wish to get out, and such as are out wish to get in?—Emerson.

## Lake That Burns

Natives of Costa Rica burn a certain lake each year. The lake is thickly grown over with tall grass, the tips dry under the sun and the natives set fire to the mass.

## Of Biblical Origin

The phrase "the breaking of the alabaster box" originated in the story of Mary Magdalene, who, tradition says, broke such a box to anoint the feet of Christ.

## Happy Thought

I think it must somewhere be written that the virtues of mothers shall occasionally be visited on their children, as well as the sins of the fathers.—Dickens.

## Limestone for Building

In the building of structures and of ornamental designs, limestone is used to a greater extent than any other form of natural stone.

## Just Deserts

There will always be movie patrons who think most of the actor who gets himself killed in the last reel.—Dayton News.

## Frisco's Fine Harbor

San Francisco has the largest landlocked harbor in the world. It is the home port for 113 steamship services.

## Power of the Tip

Some things come to those who wait patiently, but more to those who tip profusely.—Progressive Grocer.

## Editions of Bible

About 4,000 different editions of the Bible are housed in the British museum.

## Ancient Church Organ

Frederick Miller, an expert on organ history, says that the oldest pipe organ in America is in an Episcopal church in Clyde, N. Y. It was built for Queen Anne of England and presented by her to Trinity church in New York, which eventually passed it along to the congregation in Clyde. It is a genuine antique, with only 110 pipes and no pedals.

## Sun's "Looming"

The phenomenon of the sun settling and then coming into view again for a half minute or more is called "looming"—the coming into sight of objects normally below the horizon—and is owing to the downward bending of rays of light from the distant object by a shadow surface layer of cold, hence dense air.

## The Choice

We do not know what way will lead to happiness either for ourselves or for our friends. We cannot see the outcome of any earthly choice, but we know that in the end right always pays better than wrong, and that even here and now good deeds bring more comfort than any evil deeds could bring us.

## Early Electric Droplights

The first electric droplight, made in 1881 by Thomas A. Edison, was hung from the ceiling by a two-inch piece of webbing that looked for all the world like a piece of suspender webbing. Within the flat tube of textile ran the two wires feeding the lamp.

## Immortal Verse

"O Little Town of Bethlehem" was written by Dr. Phillips Brooks when he was rector of a Philadelphia church. It was first sung on Christmas, 1868. The composer of the music was the organist of Doctor Brooks' church, Lewis Redner.

## Famous Botanist

Asa Gray was for many years the leading botanist of the United States. He built up the Herbarium and Botanic garden at Harvard. He started the first summer school because of his belief that summer was the time of the year that botany could best be studied.

## First American Mint

The first colonial mint was established in Massachusetts in 1651. The mint of the United States was established in Philadelphia by act of congress, dated April 6, 1792, and the first coins were struck at the new mint in March of the following year.

## STATE OF ILLINOIS

COUNTY OF LAKE  
IN THE PROBATE COURT OF LAKE COUNTY IN THE MATTER OF THE PROBATE OF THE LAST WILL AND TESTAMENT OF LILLIAN S. FAIRMAN, Deceased.

PUBLIC NOTICE is hereby given that a petition has been filed in the Probate Court of Lake County, Illinois showing that Lillian S. Fairman, of Antioch, in said County and State departed this life leaving an instrument purporting to be a Last Will and Testament.

That said deceased left her surviving LeRoy G. Fairman, Ella Bailey, William Murray, Charles Murray, James Murray, Harry Murray, Mabel Fairman, Philip Fairman, Bruce Fairman, Ruth McDonald, Grace Crowover and Rudolph Struwer, as her only known heirs at law and that there are other unknown heirs at law and next of kin whose names, relationship and places of residence are unknown and that the following persons were named as legatees and devisees in the said instrument: LeRoy G. Fairman, Ella Bailey, William Murray, Charles Murray, James Murray, Harry Murray, Mabel Fairman, Philip Fairman, Bruce Fairman, Ruth McDonald, Grace Crowover, Thomas Cools, Rudolph Struwer, Walter K. Hills, St. Ignatius Church, of Antioch, Ill., and Methodist Episcopal Church, of Antioch, Ill.

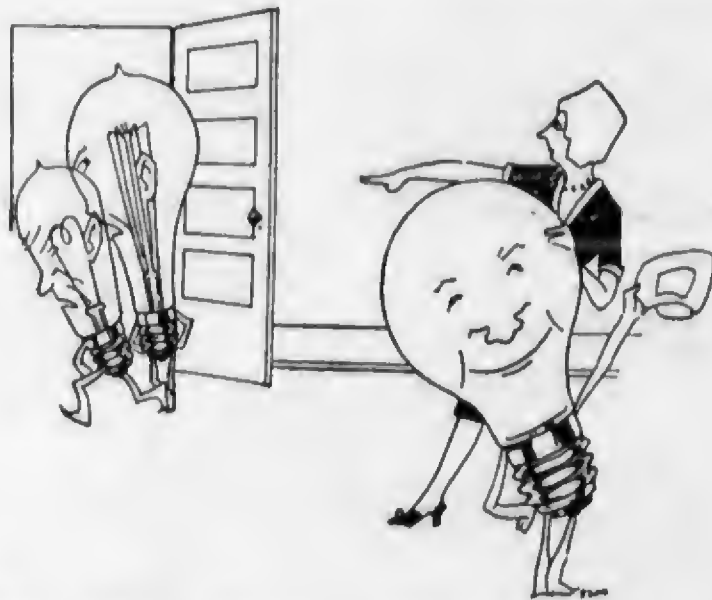

NOTICE IS HEREBY GIVEN to the above named persons and to the unknown heirs at law and next of kin of the said Lillian S. Fairman and to all whom it may concern that said instrument will be offered for probate and a hearing had on said petition by said Probate Court in the Court Room usually occupied by said court in the Court House in the City of Waukegan, Lake County, Illinois, on the 31st day of January A. D. 1927, at the hour of 2 o'clock p. m., or as soon thereafter as the matter can be heard at which time and place you are hereby notified to be present if you so desire.

Dated at Waukegan, Illinois, this 30 day of December, A. D. 1926.

JOHN R. BULLOCK

Clerk of the Probate Court of Lake County, Illinois.

RUNYARD and BEHANNA  
Attorneys for Executors.

## A Lady Got Three Lamps

—and put them to work in her home

ONE lamp was too ambitious. It did not belong there, because it was only half strong enough. It went out in a blaze of glory in less than forty minutes.

THE second lamp was lazy. It gave only a fourth of the light it should, because it belonged on a lighting system twice as powerful. Science says this lazy lamp will last 1360 years, but it will never in its life do an honest evening's work.

THE third lamp which she received at a Public Service Store was entirely satisfactory. It was of the correct strength for the electricity she was using. It not only gives a cheerful light—not too bright or too weak—but it will probably last for one thousand hours of actual use.

THIS Company's lamp service supplies only standard tested lamps designed for maximum lighting value and economy for this company's system.

How Are You Fixed for Lamps?

60-watt and 100-watt lamps are furnished without charge in exchange for burned-out lamps with glass intact, or for first installations, to all "Rate A" General Lighting Service customers. Other sizes of lamps at reduced prices—as given in the Lamp Exchange Service booklet enclosed with your current statement. This Lamp Exchange Service includes the new improved inside-frosted lamp.

## SALEM

Sandwiches, hot drinks or free cream at Nixon's Candy Shop, Antioch.

Ray Paddock and Lawrence White each purchased a team of horses in Chicago last week.

Win. Gallart has purchased a new Chevrolet stock truck.

Miss Margaret Parmater, of Dowagiac, Mich., spent the week end with Mrs. Florence Bloss.

Mrs. Oscar Holt is spending a month in Evanston, where Mr. Holt is attending school.

Owing to the recent snow storm the roads have been blocked to an extent as to prevent the rural mail carrier from making the whole of his route.

Our 3c coffee can't be beat. Fresh fruit and vegetables at The Antioch Cash & Carry Grocery.

Clarence Crowley called on his aunt, Mrs. Florence Bloss one day last week.

The Priscillas met with Mrs. Roger Huntoon last Thursday. A good crowd was out considering the severe cold and bad roads.

Arthur Bloss is reported on the sick list.

Rev. Holt officiated at the funeral of Mrs. Brinkman, of Wilmet, Monday of this week.

Mrs. Grizaff and daughters called on Union Grove friends Monday afternoon.

Miss Worsley visited the Salem Center school Thursday.

Louis Jarnigo, Joe and Ben Fox and Lester Dix were Antioch visitors Sunday evening.

Mr. and Mrs. Lawrence Jarnigo visited Mrs. Kate Jarnigo a few days last week.

Several from here attended the sale on the Hollister homestead, Saturday. Mr. Orno Schmidt has rented the farm.

Mr. and Mrs. Arthur Feldkamp and Mrs. Kate Feldkamp were Kenosha visitors Monday.

Mrs. John Evans entertained eight ladies on Wednesday afternoon which is the first meeting of the "Vanishing Tea." Each of the eight ladies entertain six ladies and each of the six entertain four. The proceeds from those is to be put into the Priscillas treasury.

Mr. and Mrs. Peter Olson were entertained at dinner at the Thomas Loftus home in Wilmet on Wednesday. It being a surprise on Mrs. Ada White of Denison, Iowa, who is visiting at the Loftus home. Mrs. Olson and Mrs. White were school mates.

Mr. and Mrs. Byron Patrick and sons visited at the Geo. Patrick home Sunday afternoon.

Mr. and Mrs. L. Johnson visited

with Mr. and Mrs. C. L. Christensen at Kenosha on Sunday.

Several from Salem attended the Farmers' Institute at Trevor last week.

The young people of the Sunday school meet at the church Friday evening. They are planning a sleigh ride party.

### A LESSON FOR YOUNG BOYS

Somebody's Mother.

The woman was old, and ragged, and gray.

And bent with the chill of the winter's day.

The street was wet with a recent snow.

And the woman's feet were aged and slow.

She stood at the crossing and waited long.

Alone, unheeded for, amid the throng Of human beings who passed her by, Nor heeded the glance of her anxious eye.

Down the street, with laughter and shout, Glad in the freedom of school let out, Came the boys like a flock of sheep; Past the woman so old and gray Hastened the children on their way Nor offered a helping hand to her So meek, so timid, afraid to stir. Least the fast cars or horses feet Should crowd her down in the slippery street.

At last one came of the merry troop, The gayest laddie of all the group, He passed beside her, and whispered low, "I'll help you across, if you wish to go."

Her aged hands on his strong young arm She placed, and so, without hurt or harm He guided her trembling feet along, Proud that his own were firm and strong.

Then back again to his friends he went His young heart happy and soul content.

She's somebody's mother boys, you know, For all she's old, and poor, and slow, And I hope some fellow will lend a hand.

To help my mother, you understand, If ever so poor, and old, and gray, When her own dear boy is far away, And somebody's mother bowed her head In her home that night, and the prayer she said Was—God be kind to the noble boy Who is somebody's son, and proud, and joy.

## The Leading Lady

By Geraldine Bonner

If you had the good fortune to read Miss Bonner's thrilling story, "The Girl at Central," you know what she can do with a mystery plot. Her new story, "The Leading Lady," is even better; in fact, is her most compelling novel. It is for the delight of all mystery readers who demand action, thrills and suspense. Along with the mystery is pleasing romance and some very interesting glimpses into the real life of stage people.

To Be Printed Serially in

## Some Time

You will be in need of printing of some kind. Whether it be letter-heads, statements, wedding invitations or public sale bills, remember we can turn out the work at the lowest cost consistent with good work.

## TWENTY YEARS AGO

THURSDAY, JANUARY 10, 1907

Miss Alice Smith, of Waukegan, spent the latter part of last week at the home of her cousin, Mrs. W. F. Ziegler.

Born on December 31, to Mr. and Mrs. George Olcott, a baby boy.

The highest score made by the ladies at the bowling alley is 136. That score is held by Miss Ada Lux.

Miss Laura Cannon, of Waukegan, spent the latter part of last week with relatives and friends in Antioch.

Ben Emmous and his sister, Mrs. Bell Gilbert, spent Wednesday of last week with Sam Gilbert at Prairie View.

One of the worst of the many explosions that occurred at the Pleasant Prairie powder mills recently occurred at noon last Saturday when eight men were killed. The cause of the accident was a complete mystery.

Butler firm at 32 cents.

Dr. Morrell, of Lake Villa, spent Tuesday with Antioch friends.

Born to Mr. and Mrs. Sheehan on Sunday, January 6, a baby girl.

Senator A. N. Tiffany left Monday for Springfield, to attend the opening of the State Legislature.

The Lake County Farmer's Institute will be held at Grice's hall, Antioch on Thursday and Friday of this week. Good speakers and good music has been provided. The Ladies' Aid are furnishing dinner and supper for both days for 25 cents a meal.

The Royal Neighbors of Olson Camp held the first meeting of the new year on Tuesday evening. The officers elected for the ensuing year were installed and one new application for membership was read. Mrs. Mary VanPatten, the retiring oracle was presented with a handsome cracker jar, a silver meat fork and a china cup and saucer as tokens of appreciation for the service rendered during the past two years, after a social hour, dainty refreshments were served.

### Dutch Ships Numerous

With the exception of Great Britain, Holland sends the greatest tonnage through the Suez canal.

### Prehistoric Animal

The ancestor of the modern elephant was an animal called "megalotherium." It was only three or four feet high, had a flexible upper lip and long forelimbs which, respectively, foreshadowed the trunk and the tusks.

### Preserved by Stucco

Among the ruins of Mesopotamia, in buildings dating back probably from 3,000 to 3,500 years B. C., are to be found at the present time walls covered with stucco, which, in a measure, owe their preservation to its use.

### Marvelous Stone Craft

The pyramids of Egypt, built, according to some modern scholars, between the years 4731 B. C. and 4454 B. C., are in some places so skillfully fitted together that the naked eye cannot detect the points of junction.

### Peruvian

Peruvian scientists found a native of Peru, a very young man, of a nature, busy, voracious and combative, at war with many other forest bug children, the Ohio State Journal informs. Its name was given for the reason that nature equipped it with a red light on its head and a green light on its tail, the lights showing at all times during the dark hours.

### First Spoons Primitive

The origin of the spoon was very likely a shell fitted to a wooden handle. Caddy spoons, which were only used after the custom of tea drinking was well established, and were very small at first to fit into the small caddy boxes and the small china cups, for tea was scarce and used in small quantities.

## NORTH SHORE LINE

## The Sonless Father of Detroit, Who Takes His Many Foster Children to See Wonders of Alaska and Europe

BUCHANAN AND HIS BOYS

GEORGE E. BUCHANAN

A bachelor who loves boys but who has no boys of his own! That is George E. Buchanan, a wealthy coal dealer of Detroit, a hard boiled business man who thinks that the best possible education a boy can have is the education of travel. He has sent 145 boys to Alaska from Detroit and Vancouver via "Princess" Steamers to Skagway; and now he plans to not only send a group of boys to Alaska the coming year, but he has enlarged his program and his former slogan "On to Alaska with Buchanan" has a side-partner, "On to Europe with Buchanan!" Buchanan is a Canadian Scotchman who has prospered wonderfully in the dynamic city of Detroit. He will tell you he has made money there, but his big idea is to give the growing

kid a chance. The kid says, "I'll do it," but Buchanan knows in his sunny Scotch way that the only thing worth having is the thing you have to earn. So he says to the boys: Here's a trip to Alaska—here's a trip to Europe for you, but listen:

"No boy, or man, ever appreciated or got any benefit out of anything he did not work or sweat for. You earn one-third of your passage money, and I will tell you how to do it as best I can; you get your parents to put up another third and I will loan you the remaining third—and you can pay it back to me when you get ready, so that another boy can be sent to Alaska—or Europe." Every boy who has made good his passage money to Alaska, is eligible for the European trip—and the per-

centage of "make good" boys has been very high, according to Buchanan. Of all these Alaska boys, Buchanan says that two-thirds have voluntarily repaid him, although he has merely put them on honor to do it when they got ready—and he foregoes no legal obligations, because there are none. Any boy anywhere in the United States or Canada, can qualify for George E. Buchanan's trip to Alaska, or to Europe, and can earn his third anywhere but, of course, he should get in touch with Mr. Buchanan, in Detroit, to learn how to earn his third. All of his boys have a wonderful time, no matter whether they go to Alaska, or to Europe, and when they finish with him they have had a business and travel education worth a whole lot.

Wetzel Chevrolet Sales

## PERSONALS

Mrs. Eastman, Mrs. David Wyle, Thelma and Frederick Eastman, of Chicago, were called here Sunday by the death of Mrs. Eastman's father, Lewis Paddock.

Mrs. Robert Wilton entertained a few friends at cards at her home on Victoria street last Thursday evening. A very pleasant evening was spent after which dainty refreshments were served.

The card party given by the Danish society at their hall Monday evening was very well attended and all present enjoyed a most pleasant evening. There were twenty-one tables. Refreshments were served.

The Royal Neighbors will hold their installation of officers for the ensuing year at the Woodmen hall on next Tuesday evening, January 25. All members are urged to be present. Refreshments will be served.

The Chetek Alert reads that the fire department was called out last Tuesday night. Bob Tiffany's garage at his residence caught fire from the stove and was burned. The loss is covered by insurance. He did not lose his car.

George B. Bartlett left last Saturday for Waukesha, Wis., where he expects to remain for about ten days taking the mud baths. Mr. Bartlett has been suffering for some time from rheumatism and it is hoped he will be much improved when he returns home next week.

### BAKERY SALE

The Woman's Club will hold another Bakery Sale on Saturday, January 22nd, beginning at 10 a. m., at the Antioch Sales and Service Station.

A fine assortment of cakes, pies, rolls and bread will be on hand and it is hoped that the weather will be more favorable so that many more people will be able to patronize this sale.

Robert C. Aht  
Wm. A. Rosling  
George Wedge, Directors

Mrs. Pearl Monnier left last week for Minneapolis, Minn., where she expects to remain for an indefinite stay.

Mrs. Laura Loken and Walter Frazier, of Evanston, attended the funeral of their grandfather, Lewis Paddock on Sunday.

Mrs. Frank Mongon underwent an operation at the Lake County General hospital on Wednesday morning. It is hoped that she will soon be able to return home.

Mrs. C. E. Hennings, accompanied by her small daughters, Shirley and Theodora, were guests of relatives and friends in Chicago from Thursday until Sunday afternoon.

Mrs. Elmer Bentner, underwent an operation at the Victory Memorial hospital in Waukegan on Tuesday morning. It is reported that she is doing very nicely.

H. J. Vos left Tuesday for a four weeks trip through the lumber camps at Spokane, Washington, then through the west visiting Calif., and other places of interest. Mr. Vos was accompanied by his brother, Roman Vos, who is manager of the Wilbur Lumber Yards at West Allis, Wis., and eight others interested in the same line of work.

Robt. C. Aht, S. Boyer Nelson and Wm. A. Rosling, First National Bank officials, left this afternoon for Chicago where they will attend the mid-winter dinner of the Illinois Bankers' association at the Palmer House ball room tonight.

There will be an all day meeting of the Ladies' Guild of St. Ignatius church at the home of Mrs. O. W. Kettelhut on Wednesday, January 26. Dinner will be served at 12:30. Bring your thimble and needle and join the circle of workers.

The Lakeside Rebekah lodge will hold open installation of officers at the Woodmen hall in Friday evening, January 21. The members of the Odd Fellow lodge are invited to attend. Refreshments will be served. All members plan on attending.

Mr. and Mrs. Murry Horton were called to West Chicago last Wednesday by the serious illness of their brother-in-law, Lyle Bell. Although Mr. Bell is still quite sick, he says "he will be able to drive out in the spring to see old Antioch friends." Mr. Bell was a former Antioch resident and his many friends here hope that he will be able to make the trip in the spring.

Mrs. Mann and daughter, Mrs. Randall, who have been quite sick the past week are much better.

Mrs. H. J. Vos attended the funeral of her uncle, Mr. Dennis McCarthy at Burlington on Wednesday.

### VESTED CHOIR ORGANIZED

Last Sunday afternoon a choir was organized at St. Ignatius' Episcopal church. The group will be vested when it sings at any of the services of the church in the ancient symbolic black and white robes of the Christian Church. Mrs. Elmer Brook, Mrs. Chase Webb, and Mr. William Kelly are in charge. Mrs. Fred Hawkins and Mrs. John Horan being the organists. In the near future the group expects to have several famous choir masters come out from Chicago and give them instruction in the finest technique of church music. The choir is made up of the following at present, Louise Simons, Esther Stearns, Lilah Hawkins, Esther Barthel, Edna Verrier, Geo. Wagner, Lloyd Murrie, Howard Gaston, William Brook, Billy Gray, Graciel Lasco, John Murrie, Kenneth Van Patten, Huster Van Patten. Any who would like to interest themselves in the group may speak to Mrs. Elmer Brook.

Removable and Fixed Bridge Work

No Charge For Extraction When Having Bridge and Plates Made

ALL WORK GUARANTEED PAINLESS EXTRACTION

The Grand avenue road from Lake Villa to Waukegan is open for traffic after being closed for several days by the snow blockade.

Reports from Kenosha state that highway 50, from Kenosha west to Lake Geneva, is entirely blocked by snow drifts and no traffic is getting through at all. The western part of Kenosha county is isolated.

Fire Chief Wm. Sandgren, of Richmond, accompanied by Merle Hobart, Otto Buchert and E. J. Snyder, were in Antioch, Wednesday advertising the big firemen's carnival to be held at Richmond, Jan. 25, 26, and 27.

Mr. and Mrs. Keulman, Entertain. Members of the married folks evening Five Hundred club were very pleasantly entertained at the home of Mr. and Mrs. Wm. Keulman last Friday evening. After an entertaining session at cards at which Dr. and Mrs. Beebe proved best players, delicious refreshments were served by the hostess.

Snow, and bad roads, Tuesday broke up the proposed meeting of peace officers, magistrates and justices at Lake Villa. There were about twenty present in all and in an informal discussion all seemed to favor an organization of officers. The meeting was postponed until Feb. 1. It will be held in the Barnstable hall at 8 o'clock in the evening.

That Louis Olsen, 78, aged recluse who had made his home in Lake county for the last twenty years, died of exposure, there is no doubt in the minds of anyone. The body of the old man was found Friday afternoon lying under an oak tree about four hundred feet from the little shack he called home. This was located at the west end of the Knollwood Country club between Roundwood and Libertyville.

Motorists' fight for repeal by Congress of the War-Excess Tax on automotive products is gathering strength throughout the nation. Charles M. Hayes, president of the Chicago Motor Club, announced last week. The Chicago Motor Club, cooperating with the American Automobile Association, is leading organized motorists of the Midwest in the new campaign against further imposition of the three per cent federal tax on motor vehicles.

### Mrs. Hawkins Hostess to

Afternoon Card Club

Mrs. O. E. Hawkins was hostess to the afternoon Five Hundred club Tuesday. Members report a delightful afternoon at the popular pastime.

### Card Of Thanks

We wish to extend our sincere thanks to all those who assisted us during our recent bereavement. Mrs. Mann and Family.

## The Leading Lady

By Geraldine Bonner

A swift moving romance of stage life into which is skillfully compounded an affair of murder and deep mystery. Young and charming, and having no enemies, who could have wished the victim's death? It puzzled the district attorney, the sheriff and a number of others. It will puzzle you even more. At the end is an explanation which will cause you to exclaim at its complete unexpectedness.

## CHEVROLET

### OWNERS

Genuine parts save time and labor on a repair job because they require no filing or hammering to make them fit.

Because of the fact that Chevrolet parts are manufactured on the same machines that manufacture the parts that are used in the assembly of new automobiles, using the same jigs and gauges, the parts are absolutely interchangeable. A very much closer inspection system has to be maintained in the fabrication of a complete assembly than in the case when an individual part is manufactured.

We carry a full line of Chevrolet parts, and have one of the best equipped shops in this part of the country. We can give you the best of service and guarantee our work

satisfactory.

Our shop foreman, Mr. Finis Peters comes to us very highly recommended and has just completed the mechanic's course at the Janesville factory and we assure all Chevrolet owners the very best of service and courtesy.

WETZEL CHEVROLET SALES. Antioch, Ill. Phone 56.

### \$29,000 BLAZE AT WAUKEGAN

The entire Sheridan road business district between Washington and Water streets, Waukegan, was in danger of being wiped out by fire early Wednesday morning, and damage estimated in excess of \$29,000 was caused when fire broke out in the M. H. Humberg building at 13 South Sheridan road, occupied by Sheridan Battery and Tire Service, owned by J. E. Geoghan, the North Shore Fruit company, and Long and Schuman, manufacturers of dresses.

## Church Notes

Christian Science  
Chinn Hall, Antioch, Ill.  
Morning Services at 11 A. M.  
Sunday School at 9:45 A. M.  
Wednesday evening Testimony  
meeting at 8 o'clock. A reading  
room maintained at this address in  
open Wednesday evening from 7:30  
to 8 o'clock.

St. Ignatius' Church Notes  
Kalender  
Third Sunday after Epiphany.  
9:30 Sunday school.  
10:30 Matins and Address.  
4:00 Choir Practice.

Last Sunday those who attended  
the Vesper Service and heard Dr.  
Prince, of Lake Forest, speak on  
the meaning of the Bishop's Crusade  
were inspired with his message and  
enjoyed his English mannerisms.

Next Sunday the newly organized  
vested choir will sing. It is a tra-  
dition in the church to have a well  
organized choir to lead the singing  
and the conduct of Divine Services.  
Mr. Dixon will have for his subject  
next Sunday, "Christ and Loneli-  
ness."

The Ladies' Guild at their annual  
meeting elected the following officers  
for the year 1927: President,  
Mrs. Ernest Simons; Vice President,  
Mrs. William Osmond; Secretary,  
Mrs. Chase Webb; Treasurer Mrs.  
Ernest Brook.

## Methodist Church Notes

The showing of the Joash Chest  
last Sunday at the Methodist church  
recalled the filling of the chest some  
twenty years ago. At that time the  
chest was so well filled that the pro-  
gram of the church was carried out  
to completion. Those who recalled  
the former days are very optimistic  
about the outcome this year. They  
say that the present generation will  
do as well in their giving to the  
church as the people of old. And  
judging from the experience of the  
past few years they will probably  
do much better. However that re-  
mains to be seen. At any rate all  
have been invited to be present on  
Sunday morning the 30th and help  
swell the fund.

Nearly 100 copies of the Gospel  
of Luke were distributed throughout  
the church since the first of the year.  
An indication that the old book still  
hold first place in the hearts of our  
people.

The prayer meeting service of last  
Sunday evening was well attended.  
In fact the attendance is increasing  
each Sunday evening. Next Sunday  
evening will or should draw a good-  
ly number as there is to be an illu-  
strated lecture on Mexico, that  
country which is attracting the at-  
tention of all the world at the pre-  
sent times. What are the Christian  
forces doing there? The pictures will  
tell the story. Come out and you  
will have a new conception of the  
work of God going on in that beau-  
tiful land.

February 6th will be a day long to  
be remembered Miss Hauck and her  
girls will present "The Challenge of  
the Cross" in the evening. That  
most wonderful of Christian page-  
ants. Note the day.

The church board who are busily  
engaged securing the subscriptions  
for the budget for the year 1927 re-  
port that they are being received  
with a hearty welcome. That  
the good folks of Antioch are re-  
sponding in a most wholesome way.  
The new plan of doing all the ask-  
ing at the one time in instilling con-  
fidence in the plan. So when you  
make your pledge make it with the  
understanding that you are making  
it for the year.

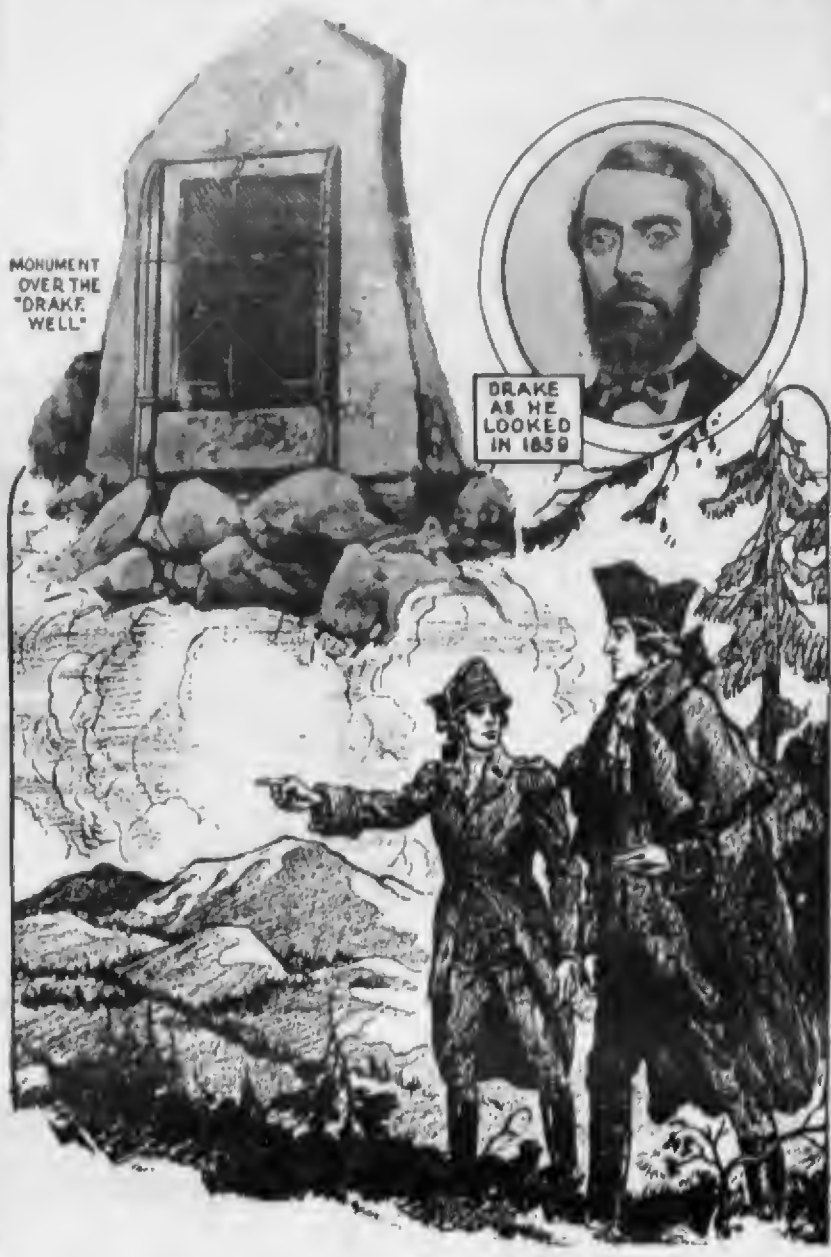

## Rain-Making Machinery

## Constructed in Russia

Leningrad.—A factory for building  
rain-making machinery is under con-  
struction here. The Leningrad Mel-  
iorative Institute recently sent a rain-  
making expedition to the remote trans-  
Caucasian farming station of Gauri, to  
make careful experiments in rain  
production. On the basis of this ex-  
pedition's report of brilliant success,  
construction of the factory was begun.  
Further tests in the Mugan steppe and  
in central Asia are being made. The  
nature of the rain-making method and  
the character of machinery necessary  
to produce rain on demand have not  
yet been explained.

360-Pound Snake Caught  
After More Than a Year

Rio de Janeiro.—A giant "Snail"  
snake, member of the boa family,  
more than 30 feet in length and weigh-  
ing 360 pounds, was recently captured  
in the state of Matto Grosso and  
brought to the Rio de Janeiro zoo-  
logical garden by Ignacio Augusto Nas-  
cemento, who led a party that pursued  
the snake for more than a year. Nas-  
cemento set out to capture the largest  
snake ever seen here, and succeeded.  
Twelve men were needed to handle  
the snake when it arrived at the zoo.

Washington's Early Adventures  
Now Assuming New Significance

by HENRY BOTSFORD

**A**FTER well nigh a century and  
three-quarters a new interest  
has recently been aroused in  
the earliest military adven-  
tures of George Washington.  
When barely twenty-one years old, in  
1753, Washington was sent by Gov-  
ernor Dinwiddie of Virginia into the  
far northwestern wilderness—that is,  
northwestern Pennsylvania—to warn  
the French that they must cease their  
efforts to occupy that region. Recent  
researches have given a new histori-  
cal significance to that expedition,  
during which Washington, always  
reckless of his personal safety, had  
one of his narrow escapes from death  
at the hands of a treacherous Indian  
guide.

The French at that time occupied  
Canada and claimed the Mississippi  
and Ohio valleys. Though the fringe  
of English speaking colonies along  
the Atlantic contained the chief Euro-  
pean population, France maintained  
sovereignty over most of North Amer-  
ica's area. They were apparently de-  
termined to occupy northwestern  
Pennsylvania, partly because it was  
known even then to be rich in petro-  
leum.

## Region's Wealth Known

Pioneers and missionaries, Eng-  
lish, French, German and Dutch, had  
all reported to their governments  
that the petroleum was of great po-  
tential value. There is, however, no  
reason to believe that Washington  
knew of its existence or value until  
his adventure of 1753. Then he learned  
that the oil had long been used by  
the Indians and the pioneering whites  
for fuel and light, for medicine and in  
making war paint. Washington was  
so much impressed with its possibili-  
ties that he later became owner of a  
large area of oil-bearing lands. Al-  
though the petroleum industry in its  
modern form was then undreamed of,  
Washington was so sure that a for-  
tune resided in his oil-bearing lands  
that in his will he listed them as his  
most valuable holdings. In the prop-  
erty schedule attached to the will he  
wrote:

"This tract was taken up by Gen-  
eral Lewis and myself on account of  
the bituminous spring which it con-  
tains, of so inflammable a nature as  
to burn as freely as spirits and as  
nearly difficult to extinguish."

## The Will of Washington

Some historians declare that in an  
earlier will Washington dedicated this  
"burning spring" to the public. At  
any rate, it had passed from his own-  
ership before his death. He sold this  
tract for \$200,000, but, suspecting it  
might revert to his estate under a  
mortgage, he wanted his heirs that  
should it do so it would be worth  
much more than the \$200,000.

Although Washington's first knowl-  
edge of petroleum was gained within  
a few miles of the place where the  
first oil well in the world was drilled,  
that first well was not opened until  
one hundred and six years later,  
1859. In that year Edwin Laurentine  
Drake bored the first well, just south  
of Titusville, Pennsylvania, and really  
started the modern petroleum indus-  
try.

## A Development Wonder

Today the American industry is the  
major part of the world's oil business.  
Americans are directing oil develop-  
ments all over the world. It is all  
part of the huge problem: to make  
sure that the tomorrow's shall see  
America's requirements met. Every  
decade the production of petroleum  
has doubled. Science and techni-  
cal progress have met all demands.  
Foreign investment and development  
are in the nature of insurance for the  
future.

In the days of Drake and the Indus-  
try's beginnings petroleum's value lay  
in lubricants and kerosene. The age

of machinery was only beginning,  
with its insatiable demand for lubri-  
cants, while kerosene, though the best  
illuminant ever known, was danger-  
ous because poor refining left gasoline  
that was liable to explode. It is dif-  
ficult nowadays, when the world is be-  
ing combed for more petroleum to  
make more gasoline, to realize that  
gasoline was once a nuisance and a  
menace. The internal combustion en-  
gine created the demand for gasoline,  
now the primary product of petro-  
leum. The demands of millions of mo-  
tor cars increasing constantly, inven-  
tion and chemistry were set at work  
by the capitalists of the industry to  
make the barrel of petroleum turn out  
a larger and larger proportion of gaso-  
line. This was done by the cracking  
process, through which every year now  
sees a larger proportion of crude oil  
turned into gasoline.

## High and Growing Demands

Today well-nigh 2,500,000 barrels  
of petroleum are required every day to  
satisfy the demand for motor cars,  
tractors, trucks, buses, artificial gas  
plants and the innumerable by-prod-  
ucts. Innovation is constantly finding  
new uses, as enterprises just as con-  
stantly find new supplies of petro-  
leum. The wonderful and rather mys-  
terious fluid has revolutionized social  
habits and industrial methods; yet it  
is only two-thirds of a century since  
the industry had its feeble beginning  
in the Pennsylvania oil country.

This year the country will use about  
750,000,000 barrels of petroleum. The  
country will use 500,000,000 gallons of  
gasoline and will export 1,900,000  
more. The production, processing and  
marketing of petroleum is probably  
second only to agriculture among  
American industries.

Roughly, 70 per cent of the world's  
petroleum industry is American. Ten  
billions of capital is invested in it—  
half the valuation of the national rail  
road system. It employs just about  
1,000,000 people. The petroleum pipe  
line system, gridironing a good share  
of the country, aggregates about 85-  
000 miles. Petroleum revolutionized  
naval warfare by bringing in the oil  
burning ship; it is fast revolutionizing  
merchant marines in the same fash-  
ion. Multiplication of motor cars,  
along with the special taxation of  
their gasoline, has made possible the  
modern highway system.

## A True Social Service

Perhaps the most nearly revolution-  
ary result of Drake's modernization of  
the petroleum industry is to be found  
in the change it has brought in the  
life of rural America. It has carried  
the city to the country, the country  
to the city. It has, by making possi-  
ble the cheap and quick transporta-  
tion that everybody nowadays en-  
joys, enabled country and city to  
know and understand each other as  
they never did before. It has brought  
social and educational privileges to  
country dwellers that a few decades  
ago seemed absolutely denied to  
them. On the one hand it has en-  
abled the cities to spread out into sub-  
urban areas and the zone of country  
estates; on the other, it has enabled  
the people of the open country to have  
neighbors, society, church and school  
privileges, intimate acquaintance.

It is a historic fact that the tenden-  
cy toward division of interest and un-  
derstanding between city and country  
is the most serious internal menace to  
the security of nations, to the integri-  
ty of society.  
More than anything else, country  
and city need to know and understand  
each other and each other's prob-  
lems. The easy transportation, the  
ready opportunity for association and  
acquaintance that have come with  
the Age of Petroleum have made pos-  
sible, in this favored country at  
least, this new intimacy and v

CONSTANTINOPLE  
MAY CHANGE NAME

City by the Bosphorus Known  
by Many Titles.

Washington.—The suggestion has  
been made in Turkey that Constanti-  
nople be renamed for Kemal Pasha,  
president of the republic.

Constantinople has had many names  
at various times, says a bulletin of  
the National Geographic society from  
its Washington headquarters.

"Not for 400 years has Constantinople  
been Constantinople to the Turks.  
It is Stambul to them. Some geo-  
graphical title experts hold that Stamboul  
has been abbreviated by the  
Turks from Constantinople just as they  
abbreviated Thessalonica (Salonica)  
to Selanik. There are two other con-  
tentions. One is that Stambul is a  
corruption of a phrase which the  
Turkish invaders heard the Greeks  
say, 'tes teen polen,' literally 'to the  
city.' Another supposition is that  
'Islam,' meaning 'true believing,' and  
'bul,' meaning 'camp,' have been  
welded together by the Turks into  
Stambul, 'abounding in the true Mos-  
lem faith.'

"Emperor Constantine, for whom  
Constantinople is named, did not him-  
self give it that name. On May 11,  
330 A. D., Constantine called together  
a mass meeting in the newly complet-  
ed hippodrome. It was a ceremony  
of rejoicing. A new city had been  
built, destined to succeed Rome as  
capital of the Roman empire for 11  
centuries. At the high point of the  
hippodrome pagani Constantine dedi-  
cated the city to Christianity and  
named it Nova Roma.

"It was the Greeks who called it  
Constantinopolis and finally it be-  
came Constantinople. The patriarch  
of the Greek church still signs his title  
'bishop of Constantinople, New Rome,'  
but Nova Roma was forgotten. So  
was the original name, Byzantium for  
King Byzas, a local ruler, who first  
built a town on the Golden Horn  
peninsula.

"Turks have had other affectionate  
names for Constantinople just as  
Americans call New York, Father  
Knickerbocker. Sometimes the Turks  
call it Qumunduhia, 'the Mother of  
the World,' and sometimes Islamol,  
'the City of Islam.' Another name is  
Der el Sander, 'the City of Fidelity.'  
Arabs call it by a name which is sig-  
nificant, El Farruch, 'the Earth Divid-  
er.'"

Government Railroad  
Reports \$1,116,000 Loss

Washington.—While the railroads  
throughout the United States are en-  
joying their greatest period of pros-  
perity, the only government-owned  
line—the Alaskan railroad—sustained  
a loss of \$1,116,000 for the year, its  
general manager reported to the se-  
cretary of the interior recently.

Revenues of the road increased by  
\$206,274 during the year, while operat-  
ing expenses were cut \$298,000.

Plans for the completion of the road  
and purchase of modern equipment  
call for an expenditure of approxi-  
mately \$12,000,000 during the next few  
years.

Here Are New Words,  
Take 'Em or Leave 'Em

London.—Mayfair has developed two  
new slang words which are now be-  
ing worked overtime.

"Marabout" is one and it is used to  
describe anything old-fashioned or  
dowdy. It is a very elastic word,  
however, and at the Kit Cat club it  
was heard applied to everything from  
one's enemies to a drink of which  
someone did not approve. It is a  
noun.

The other word is a synonym of  
"marabout" and is used both as a  
noun and an adjective. It is "eng-  
ing," a variation is "engingy."

Sand Heralds Knell of  
Artificial Lighting

Darrington, Wash.—Here's a mighty  
interesting incident, if true, vouch-  
ered for by George Van Cleave which  
heralds the knell of artificial lighting.  
Recently Van Cleave plastered his base-  
ment, using material from a sand vein  
found near here. At all times the  
walls radiate light, the sand possess-  
ing radioactive properties. Samples  
of the sand vein are being analyzed  
by the geologists at the state univer-  
sity.

Anatomy of Hindu Lad  
Seems to Be All Wrong

Bombay.—Medical science is  
baffled by the strange case of a  
Hindu lad of thirteen who has  
just been admitted to the Os-  
mania general hospital at Hy-  
derabad, suffering from a knee  
joint complaint.

Outwardly nothing is wrong  
with the boy, but during a  
routine examination it was dis-  
covered that the organs of his  
chest are completely transposed,  
the liver being on the left side,  
heart on the right side, spleen  
opposite its normal position,  
while his stomach is in an in-  
verse position. His intestines  
lay coiled in the opposite direc-  
tion.

The boy is healthy, and the  
phenomenon is believed to have  
been due to twisting during the  
early weeks of his embryonic  
life.

## This Car Appeals To Women's Taste

It looks as though these young ladies posed to show what the well  
dressed Miss will wear and drive for the 1927 season. The car is a  
Studebaker Standard Six Custom Victoria.

Since the introduction of the  
Studebaker Standard Six Custom  
Victoria this car has won such un-  
precedented popularity, especially  
among women motorists, that the  
sales chart shows a line which re-  
sembles the route of a mountain  
trail.

In the opinion of Middendorf and  
Huber, local Studebaker dealers the  
popular acceptance of this new mem-  
ber of the Studebaker Custom Car  
family by women is due to its grace  
of line, beauty of coloring, luxury of  
appointments, riding comfort, and  
many driving refinements, such as  
the exclusive no-draft ventilating  
windshield—a patented Studebaker  
feature.

"The design of this Custom Vic-  
toria instantly appeals to any dis-  
criminating woman," Mr. Middend-  
orf points out. It is trim and smart  
in appearance, to delight her eye;  
eagerly responsive to her touch; and  
it possesses the dignity and beauty to  
make it an ideal car for social occa-  
sions. With its compartment behind  
the driver's seat for small parcels  
and spacious locker under the rear  
deck, it is equally attractive for  
shopping.

"Within there is comfortable seat-  
ing accommodation for four passen-

gers—a wide, lounge seat for two at  
the right and slightly to the rear of  
the driver's seat and a high-back,  
comfortable auxiliary seat beside the  
driver's seat.

"This ingenious seating arrange-  
ment makes the Custom Victoria ap-  
peal also to professional men, espe-  
cially under circumstances in which  
the car serves the double duty of  
personal and family use. Four-pas-  
senger capacity is more and more  
becoming recognized as an ideal  
size. Two is insufficient for all ex-  
cept strictly personal needs and the  
sedan is often more than ample.  
Government statistics point out that  
the average American family con-  
sists of four persons and in the Stan-  
dard Six Custom Victoria, this aver-  
age family finds its ideal all-purpose  
motor car.

"Of course, Studebaker does not  
assume that this car will be ideal  
for every family," said Mr. Middend-  
orf, with a smile. "I have in mind  
a recent news article which describ-  
ed a New York family in which  
there were eighteen children. The  
Custom Victoria would scarcely suit  
their needs, but they, too can find in  
the Studebaker line their ideal ve-  
hicle—one of our commodious  
twenty-passenger busses."

## Tree's Many Names

"Dogwood" is supposed to be a cor-  
ruption of "dogwood," a name equiv-  
alent to its other names, "prickwood,"  
"skewerwood"—so called because,  
being firm, hard and smooth, it is used  
to make butchers' skewers.

## Two Parts of Life

The uttered part of a man's life,  
let us always repeat, bears to the un-  
uttered, unconscious part a small un-  
known proportion. He himself never  
knows it, much less do others.—Car-  
penter.

## Naval Class Colors

Each class in the Naval academy  
has class colors. The class colors are  
used in the same way in which a class  
seat would be used, to designate the  
particular class to which one belongs.

## Longer Pilgrimage

Men and women live longer now  
than did those of half a century ago.  
The life span has been increased by  
17 years. The gain is the result of  
knowledge.—Detroit News.

## Small Source of Supply

The world's supply of balsam of  
Peru, used in perfumes and medicines,  
all comes from a ten-mile grove of  
trees in Central America, known as  
the Balsam grove.

## Waste in Gold Beating

Only about 700 out of every 1,000  
gold leaves that are beaten are per-  
fect enough to put on sale in spite of  
the expert care of the gold-beat-  
er.

## Triumph in Adversity

By adversity are wrought the works  
of greatest admiration, and all the  
fair examples of renown out of dis-  
tress and adversity are grown. Dandel.

## Righteousness First

So I like life, and I like righteous-  
ness; If I cannot keep the two to-  
gether, I will let life go and choose  
righteousness.—Methus.

## Variation in Weight

The maximum weight of an object  
is at the surface of the earth.  
Weight above or below is less than at  
the surface.

## All the Difference

All men are born equal, but it is  
what they are born equal to that  
makes all the difference.—Good Hard-  
ware.

## Armadillo Reproduction

The armadillo bears its young in  
lots of four, each lot being all males  
or all females, according to liberty.

## Anglo-Saxon

The words beginning with "k," knot,  
knee, know, knave are Anglo-Saxon  
derivatives. Originally the initial k  
was pronounced. As late as Chaucer's  
day, the word "knight" was pro-  
nounced as it spelled "knight."

FIND TWO COMETS  
IN SINGLE DAYScientists Hang Up New As-  
tronomical Record.

Boston, Mass.—Discovery of a new  
comet on the same day as the redis-  
covery of an old one by the man who  
originally found it was the astronomi-  
cal record hung up by European as-  
tronomers recently, according to Dr.  
Harlow Shapley. Doctor Shapley is  
director of the Harvard college ob-  
servatory, which acts as a clearing  
house for news of astronomical discov-  
eries.

The new comet was picked up by  
Dr. J. Comas Solá, director of the  
Fabra observatory at Barcelona, Spain,  
and following the usual practice, will  
become known to astronomers as  
Comas Solá's comet.

When discovered, it was in the con-  
stellation of Cetus, the Whale, which  
can be seen in the southeastern sky in  
the evening. It was moving to the  
southwest, but as it is of the twelfth  
magnitude, a good-sized telescope is  
now required to see it.

Neujmin's comet was the celestial  
visitor which returned, and was picked  
up the same day by Dr. G. Neujmin at  
the observatory at Simla, Russia.  
Doctor Neujmin originally found this  
comet on February 24, 1916, and calcu-  
lated that its orbit would bring it back  
every five and one-half years. In No-  
vember 16, 1920, he photographed a  
strange celestial object, which is be-  
lieved to have been his comet, but as  
sufficient observations to accurately  
determine its orbit were not obtained,  
this is not certain.

When rediscovered on this trip,  
Neujmin's comet was in the constella-  
tion of Leo the Lion, near the handle  
of the familiar "Sickle," which can  
be seen in the eastern sky for a few  
hours before sunrise. It is even  
fainter than Comas Solá's comet, as it  
was of the fourteenth magnitude.

France May Sell Prison  
of "Man in Iron Mask"

Paris.—Plans of the French govern-  
ment to sell the island of Ste. Margue-  
rite, where the "Man in the Iron  
Mask" was imprisoned for ten years,  
have met with much antagonism. The  
report that British capital was plan-  
ning to turn the island into a model  
winter resort has brought protesta-  
tions from every part of the Riviera.  
The district is already objecting to  
the numerous subdivisions financed  
by foreign capital.

The island of Ste. Marguerite, which  
is about four miles in circumference,  
is situated at the mouth of the Can-  
nes bay. The "Man in the Iron Mask,"  
made famous by Dumas, was incor-  
porated in the Ste. Marguerite fortress  
in 1687. History still disputes his  
identity. It is reported that the French  
government has been offered a large  
sum for the island, but newspapers  
and societies are fighting the pro-  
posed sale.

## Millions for Malaria

Malaria, it is officially stated, costs  
the British empire approximately  
\$200,000,000 a year.

# WILMOT NEWS

## VOICES PROTEST OF

### ROAD CONDITIONS

A peculiar situation arose last Saturday when the problem of opening the English Prairie and Wilmot road for the Brinkman funeral Monday arose, had to be confronted. Highway Commissioner William Harm, of Burton township, McHenry county, Illinois, ably took hold of the situation. The three miles and a half of road presents a difficult condition for it is in two states, three counties and four townships.

The State of Wisconsin, Kenosha County, and Salem and Randall townships, in the state of Illinois, Lake and McHenry counties and the townships of Antioch and Burton. Stretch of road of three and a half miles between Wilmot and English Prairie is under the jurisdiction of the above town, County and State boards, hence the neglect for lack of coordination amongst them.

It has gotten to be no ones business whether it is kept in shape or not. The condition of the road for the past several years, winter and summer has been a matter of local protest on the part of the people living on it and those forced to travel over it. It is part of the shortest route between Aurora, Elgin, McHenry, Johnsburg, the Fox Lake District, Spring Grove in Illinois and Wilmot, Burlington, or Kenosha and Racine to Milwaukee. In Wisconsin thousands of cars pass over it yearly and the hardships and dangers encountered are absolutely unnecessary and a condition the taxpayers in the district affected should tolerate no longer.

Over in Illinois two horse driven snow plows were at the disposal of the farmers under Commissioner Harms direction. Earl Swenson, Clifford Pacey, Leland Hegeman and Commissioner Harm donated horses and all the farmers turned out to help. They worked all Saturday and Sunday not only opening trunk highways but the side roads and cars can now travel to Spring Grove, Richmond, Antioch and Fox Lake without danger of being stuck. The plow assigned to the Wilmot road covered that part in Illinois in Lake and McHenry counties and Commissioner Harm thought it only fair that help should be given them by the Commissioner in Randall township over the Wisconsin line. It was not only refused but the suggestion made that the Illinois men stay out. However, they were decent enough to overlook the matter and came.

through opening up the hills, so difficult to travel after a snow storm, south of town and the road through the village of Wilmot and to the Wilmot cemetery. On Sunday the Salem Township Highway trucks arrived to open the roads here.

It is time the officials of the four townships which this short stretch of road passes through meet and agree on remedies for the condition that it is in. There are points of it not only dangerous, owing to narrow highways, sharp curves and deep ditches but road bed in itself in the Wisconsin division is nothing but a mass of ruts and pond holes. It sufficient pressure by the tax payers in the locality is brought to bear on the matter it can readily be adjusted and the thousands who are forced to travel this route may do so in safety and comfort.

The community thanks the Illinois farmers who dug out of the snow drifts, a condition not to be tolerated in these days of enlightenment.

## MRS. MARTIN BRINKMAN PNEUMONIA VICTIM

Funeral services were held at the M. E. church Monday afternoon for Mrs. Martin Brinkman, Rev. Oscar Holt, of Salem, was the minister in charge and a male quartette from Woodstock sang several selections. Bearers were schoolmates and friends of the deceased. Glen Cole, Benjamin Winn, Walter Witt, Herbert Swenson, John and Roy Richter.

Myrtle Louise Seidschlag Brinkman died at her late home in English Prairie, Thursday, January 13th, following a nine days' illness of pneumonia. She was born in Lake county, the daughter of Herman and Mary Seidschlag on January 22, 1900. In 1908 the family moved to English Prairie and there she grew to girlhood.

Mrs. Brinkman was a graduate of the class of 1917 from the Union Free high school and was Valdictorian in class of fourteen members. After her graduation she remained at home for a year and then attended the DeKalb Normal School. The next three years she taught in the Washington School district.

On June 15, 1921, she was married by Rev. Kaufman at the Lutheran parsonage in Woodstock to Martin Brinkman, of Wilmot. They have since made their home on the M. R. Cole farm at English Prairie.

The deceased is survived by her husband, two sons, Dale Martin and Lloyd Dean; her mother, Mrs. Mary

Seidschlag; two sisters, Mrs. Mark Pierce, of Spring Grove, Ill.; Mrs. Loren McFie, of Ringwood, Ill.; three brothers, Herman, Howard and Glen, of English Prairie.

Her father, one sister and four brothers preceded her in death.

The funeral services were very largely attended and burial was in the family plot at the Wilmot cemetery.

## Union Free High School Notes

A small audience was present to hear Mr. Wiler, superintendent of the Burlington schools, address the P. T. A. last Tuesday evening. Mr. Wiler presented some very fine ideas on the most important of modern problems the treatment of boys and girls. Those who missed this fine talk regret it. Other members of the program were a poem by John Haggerty. A Highland Fling, by Mylanta Haggerty, Alice McDougall and Eleanor Elbert and a short play by Alys Hahn and Mary Daly.

A brass sextet, a new feature among the musical organizations of the school, made its initial appearance at the Farmers' Institute at Trevor last Tuesday, and the novelty was such a success that it will be repeated in the near future. Gladys Burton, Charles Jurevick, Don Tyler, Earl Hood, Emerson Schmalfeldt and Mr. Eldon Mulder make up the sextet. Other musical numbers included a vocal duet by Emerson Schmalfeldt and Earl Hood and a violin solo by Mr. E. Mulder.

Members of the basket ball team enjoyed a rest over the week end, when the game was postponed because of scarlet fever. Two games are booked for this week, both on the home floor. Wednesday night the White team from Kenosha will be met. The Richters and Lake Geneva have a game the same night. Friday Genoa City plays the local team. It will be recalled that the Wilmot team recently lost to Genoa by two points, and Captain McDougall and his men are eager for revenge. An effort is being made to book Silver Lake team for a preliminary game Friday evening.

Final examinations will be held on Thursday and Friday, and the new semester will open next Monday.

Election of officers constituted the principal business at a meeting of the Cavaliers last Thursday afternoon. Officers for the coming semester will be: President, Willie Fiegall; Vice President, Charles Jurevick; Secretary, Donald Tyler; Treasurer, Bernard Hockney; Regent, Leo Leiting; Sergeant at Arms, Fred Forster; Censor, George Richter.

Plans are being made for the initiation of eleven new members, to take place shortly after the opening of the new semester.

night, was received here Saturday. Mr. Winn had not been well for some time and his sudden death was unexpected. Funeral services were held at the home in Zion City at ten o'clock Tuesday morning with burial in the Mound Prairie Cemetery. Mr. Winn is survived by his wife and seven children.

Mr. and Mrs. Madison Ballantyne, of Aberdeen, South Dakota announce the birth of a daughter, Martha Alice on Wednesday, January twelfth. Mrs. Ballantyne was formerly Sadie Boulden of Wilmot.

The Fred Semrau Post No. 361 of the American Legion are making plans for the euchre party which they are to give at the M. W. A. hall this Wednesday evening. Roy Swenson, of Camp Lake is in charge of the affair.

## "Comes Up Like Thunder"

A writer says: "In Palestine, the sun seems to leap over the horizon at daybreak. There is no long period of dawn with increasing light. Like a fiery chariot the sun springs forth from the darkness, and it is noon."

## Young Wife Afraid to Eat Anything

"I was afraid to eat because I always had stomach trouble afterwards. Since taking Adlerika I can eat and feel fine." (signed) Mrs. A. Howard. ONE spoonful Adlerika removes GAS and often brings surprising relief to the stomach. Stops that full bloated feeling. Removes old waste matter from intestines which you never thought was in your system. Excellent for obstinate constipation. Reeves Drug Store.

## CHRISTIAN SCIENCE CHURCHES

"LIFE" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, Sunday, January 16.

The Golden Text was from Psalm 10:11, "Thou wilt show me the path of life: in thy presence is fulness of joy; at thy right hand there are pleasures for evermore."

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "And this is the record, that God hath given to us eternal life, and this life is in his Son. He that hath the Son hath life; and he that hath not the Son of God hath not life. And we know that the Son of God is come, and hath given us an understanding, that we may know him that is true, even in his Son Jesus Christ. This is the true God, and eternal life" (1 John 5:11, 12, 20).

The Lesson-Sermon also included the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "Ignorance of God is no longer the stepping-stone to faith. The only guarantee of obedience is a right apprehension of Him whom to know aright is life eternal" (Prof. VII).

## Injurious Drugs

Hashish is the name of a drug prepared from gum obtained from a plant known as Indian hemp. It is a powerful narcotic and is smoked extensively by the Arabs. Its effects are very similar to those produced by the use of opium. In India a highly intoxicating drink called bang, is made from hashish. Its use is very injurious to mind and body.

## If She Were a Widow

Clyde Gerard knows a wife who complied to her claim that she would like to be a widow for a few months just to see how she would look to other men. We have no idea how she would look to other men; but we fancy we know what the other women would say. —Copper Weekly.

## Criminals Lack Education

We don't believe criminals are better educated than they used to be. At least their work doesn't show any improvement over that of the last decade. They still use the same blunder bag, bulldozing methods, and haven't evolved a new idea in a generation. —Philadelphia Inquirer.

## As We Thought

A New York man has invented a hat which is secured to the head by means of suction. Judging by the films, the American detective has always worn this sort, as he is the only man who doesn't uncover when the body is found. —London Opinion.

## Conditions of Trust

If he has a good reputation and bears himself like a gentleman, trust him, provided he agrees with you in religion and politics and is not your competitor in business or your rival in love. —Houston Post-Dispatch.

## Elephant Dying Out

The elephant is the last of his kind, the offspring of the mastodon and the mammoth. Africa is the last stronghold of these large animals, but they are in a fair way of extinction like many other species of wild beast and bird. About 20,000 elephants are killed annually for their ivory and they cannot multiply rapidly enough to keep up with the slaughter.

## Astriders

"Go to the ant" is good advice for most men, but politicians get more inspiration out of the straddle bug. —Baltimore Evening Sun.

A COMPANY of actors gathered on Gull Island off the coast of Maine, after a charity performance of "Twelfth Night." Some of them still in costume. No other people on the island save the caretaker of the great house and an old boatman. One of the company murdered. The victim's body lost in the powerful current. Who did it? That's what you will wonder. A real, a satisfying surprise.

An Amazing Mystery Story That Will Appear Serially in

THE ANTIOCH NEWS  
commencing next week.

# Our Place In Your Community

This bank is much more than a safe place to keep money. It is really a business service station for your financial transactions.

We are interested in the welfare of this community because we are interested in its prosperity. We want to see the business and agriculture of the community prosper because that means prosperity for you and for us.

The resources of this bank are available to build up the business and agricultural interests. Come in and talk over your business problems.

STATE BANK OF ANTIOCH  
Antioch, Illinois

## NURSE IS LOST IN MOUNTAINS FOR A MONTH

### Canadian Woman Found Almost Starved With Clothes in Shreds.

Princeton, B. C.—The barren country north and west of this frontier settlement exacts a stern toll from those who would wrestle with the elements, but one of the strongest episodes of a land which teems with almost unbelievable stories was that related by Mary Warburton, a fifty-seven-year-old nurse, who was lost in the mountains for a month.

The hardships endured by Miss Warburton would have caused the death of many a younger, harder person, and authorities who listened to her tale marveled at the courage this woman displayed in her fight for life.

Glad only in a light khaki hiking costume, Miss Warburton left Hope, 45 miles from here, intending to tramp over the mountains to Princeton. She took only enough food to last her four days.

Loose Way and Then Her Food. Although familiar with the trail, she took a wrong turn after she had covered 25 miles. The following day she stumbled while crossing a ravine and lost all her food with the exception of a quarter of a pound of butter.

Realizing that she would need all her energy to complete the trip, Miss Warburton conserved her buffer, eating only a small portion morning and night while it lasted. In a few days, however, she was without food and obtained her only nourishment by chewing leaves and fungi, which she did not swallow. After the first week

After the First Week She Did Not  
Feel Hunger.

or so she said she did not feel hunger. Relatives of the nurse, fearful for her safety, sent out search parties, but one by one they returned without a trace of the missing woman. With hope almost exhausted a final effort was made with "Popunk" Davis, a famous guide, and Constable Daugherty of the provincial police.

#### Found by Rescuing Party.

Providentially the two searchers crossed the missing nurse's path. On their second day out they pitched camp near her. She observed the smoke of their camp fire and called to them. They rushed to greet her and were dumfounded that a woman in her emaciated condition could have lived so long.

When they reached her side Miss Warburton's clothes were torn to shreds and she was supporting herself by the aid of a stick. The only part of her shoes left were the soles and she had bound them to her feet with pieces of rope made by twisting grasses together.

"You are angels from heaven," she gasped, and collapsed at their feet.

The worn-out woman was brought to Princeton by pack horses and automobile. Upon her arrival at the local hospital she insisted on taking a hot bath, unaided, and then climbed into bed.

#### Gives Up Suicide Idea When Bible Is Quoted

Washington.—The Bible has proved more efficacious than the police manual to Washington officers in rendering unwanted assistance. Policemen found Luther Rhodes, fifty-two, unconscious in his home with gas flowing from the jets of a stove, but upon being revived he asked them to leave him and not offer aid. Finding the police manual inadequate in such cases, the policemen started quoting passages from the Bible. After a few minutes Rhodes, the police said, told them he was sorry for his act and would not try it again.

#### Woman Fights Wolf

Modesto, Calif.—From a remote mountain camp comes an account of a woman's battle with a big wolf. Bare-handed, Mrs. Peter Hornado fought the animal at the door of the cabin and saved herself and two babies. The wolf eluded her after tearing her clothes and scratching her, then ran when the woman picked up a chair.

## Shark Chases Man in Boat for 40 Miles

Portland, Maine.—David Conrad, fifty, rejoined the crew of the fishing schooner Benjamin Thompson here the other night after a thrilling adventure at sea, in which he was forced to row all day and all night to reach shore and escape a huge shark which pursued him.

Lost in a fog while out in a dory, Conrad, given up for dead after an ineffectual search for him, started to row to land, 40 miles away. Soon he spied a shark in his wake and before he arrived at Damaris Cove light station he had thrown overboard all of his fish to appease the hunger of the creature chasing him.

Conrad was without food or water during his row, but, with plenty of tobacco and matches, he managed to keep himself going. His hands were covered with blood and blisters and he was nearly exhausted when he got to land.

After being cared for overnight at the lighthouse, he started for Portland on another craft.

## BIBLE TEACHER IS "LONE WOLF"

### Terrorized Chain Store Managers for Weeks.

Newark, N. J.—How a nineteen-year-old Sunday school teacher became "the ace," a lone-wolf bandit, was told by police after they investigated the story of Thomas Stephenson, self-confessed holdup man, who has been terrorizing chain-store managers for five weeks.

Stephenson, who taught every Sunday at the school of the First Methodist Episcopal church, Arlington, was captured while fleeing with \$100 he took at pistol point from the manager of the Star Luggage company in Market street.

"Thoughts of being a holdup man came to me," he told police, "when the moonbeams glistened on an old revolver that hung on my bedroom wall. I admired myself in the role of a bandit as I stood before the mirror holding the gun and repeating, 'Stick 'em up.'"

He confessed five robberies, all perpetrated on Saturday night. He would hand a card to the store manager which read:

"I'm the ace. Hand over the money."

## Woman Skipper Plugs Leak With Silk Hose

New Orleans.—When a green deck-hand tossed out the anchor chain at the wrong time and tore a hole in the bottom of her 50-passenger cruiser, Mrs. Helen M. Jalufka, captain and skipper of the vessel, won her sobriquet of "the woman with the iron nerve."

The water was rushing into the hold when the woman skipper jerked off one of her shimmering silk stockings, wadded it into a protecting ball, and thrust it directly into the hole. She held it there until members of her crew came down to make more permanent repairs.

Up on the deck the passengers laughed and sang under a brightly shining moon. They had not the slightest inkling of the near tragedy of the sea that was being enacted down in the gloom and darkness of the hold with their skipper as the chief actor.

Two years ago the quiet, determined little woman passed the difficult nautical examination with flying colors. Since that time Captain Jalufka has been carrying excursion parties on cruises in Corpus Christi bay, the Gulf of Mexico, or virtually anywhere in southern waters.

Directing the vessel's course, steering the boat through narrow passages, and "shooting the sun" are only a part of her day's work. Her cool head has averted minor disasters of the deep several times when all seemed lost.

## Musician's Wind Failed and Jail Delivery Fails

Pineville, N. C.—Discordant notes entering a harmonica marathon as the musician paused to catch his breath in jail here caused the disbanding of a perfectly good orchestra and incidentally the frustration of a jail delivery.

Early in the night Charles Wilson, deputy jailer, was attracted by the prolonged concert of the harmonica soloist, who, after exhausting his repertoire of mountain folk songs, savagely assaulted modern jazz.

The jailer liked the music, but he disliked the discord when the musician gasped for breath.

Investigation disclosed an orchestra of two men. One, using left violin strokes with a file, had played through three bars and was at work on the fourth, while his accompanist, with the harmonica, played hard on the harmonica.

Four steel saws and a window weight were seized and all cells carefully inspected.

#### Latest Fad

Pittsfield, Mass.—The latest fad for girls is to take a stroll with a hopping white rabbit held by a leash.

## Beards and Baptism

The chief social events in human life in the days of Old England had naturally some curious superstitions and quaint customs associated with them. When children of different sexes were brought to the font at the same time the baby boy must always precede the girl, otherwise she was in danger of having a beard when she grew up, while the boy would have none.

## London's New Bridge

Fourteen road bridges cross the Thames within the county of London. London bridge of the present was completed in 1831, the Tower bridge in 1894. Other great bridges are Southwark, Blackfriars, Hungerford, Westminster, Waterloo, Lambeth, Vauxhall, Victoria Albert, Battersea, Wandsworth, Putney and Hammersmith.

## How They Take Him

When a man is beyond fifty he isn't so sure that the girls of the period are less circumspect than they were when he was twenty-five, but he does know that they took through him as if he were glass and as if they were thinking of something on a distant horizon.—Louisville Times.

## Earliest Speed Laws

The first speed laws were enacted at Fredericksburg, Va., in 1787, according to an answered question in Liberty. The law stated that anyone who galloped his horse on Main street, if a free man, should be fined, and if a slave, should be given 29 lashes at the public whipping post.

## Standards of Time

Standard authorities refer to a fifth standard of time, known as "intercolonial," "colonial," "Atlantic," or "provincial" time, corresponding to the sixtieth meridian and one hour faster than eastern time. This fifth standard is used in New Brunswick and Nova Scotia.

## Ants Aggressive Warriors

Students of ant life say that the Amazon ants are the most aggressive of warriors, invading nests of other species of ants and compelling them to work for their conquerors and to rear their broods while the Amazons spend their time in fighting and primping.

## To Clean Gilt

Dirty gilt should be rubbed with a duster. Blow the dust off with a bellows or vacuum cleaner and flick with a feather brush. Good gilt that has tarnished will be improved if turpentine is applied lightly with a sponge.

## Long Terms of Office

The longest term of office of any government official is that of the comptroller general and the assistant comptroller general, who each hold office for fifteen years, according to an answered question in Liberty.

## Matter Unchangeable

It is an accepted fact by the majority of scientists today that matter can neither be destroyed nor created. It may be changed, re-arranged, adapted, in innumerable ways, but this does not involve actual creation.

## Fear Generally Justified

"A hypocrite," said H. H. Ho, the sage of Chinatown, "is always nervous. He lives in fear that some one will find out as much as he knows about himself."—Washington Star.

## National Meeting Place

The Galata bridge, Constantinople, is sometimes called "the Crossroad of the East" because it is said that here one may in 12 hours see all the nationalities of the world.

## Decline to Mix

"Young blood and old brains" are said to be a good combination. The trouble is to get either one of them to find any use for the other.—Boston Transcript.

## Patriotic Roman

The first Brutus, the famous Roman, put his own sons to death for disobeying orders during a military campaign, according to an answered question in Liberty.

## Hogging the Pictures

French lawyers must not pose with criminals, hereafter, for pictures. Did their clients complain that the lawyers were taking more than their share?

## Great British Hockey Club

One of Britain's greatest hockey clubs was the Irish club, of Palmerston, which in six successive seasons lost only two matches of 180 played.

## Displacement

If the "missing link" is discovered, the human race might do well to put it in the place of some of the links that are not missing.

## As Usual

"This may hurt a little," said the absent-minded dentist as he changed to his nibbler, "but it will be over in just a minute."

## Tamper With His Color

Father Time is a great artist, but women do not admire his line work.—Boston Transcript.

## Irish Proverb

"Better own a trifle than want a great deal."

## Our National Efficiency

VISITORS to the United States from other countries marvel at the efficiency of our great industrial organizations, of the skill with which great crowds are handled on occasions of public interest, and a score of other things in which the ability of American organizers to handle things in great volume is shown.

The principal tool or instrument behind these seeming marvels is usually found to be the telephone. Take telephone service out of our great factories, our great stores, our great exhibitions and congresses, and confusion will be likely to replace the smoothness and efficiency at which the visitors marvel. Studies extending over half a century have brought the telephone service in America to its present efficiency. While this is most strikingly shown in connection with big affairs and great emergencies, it is likewise to be found in the ordinary service, which is at the call of any and every telephone subscriber.

## Attempt, Anyway

Far better it is to dare mighty things—to win glorious triumphs—even though checkered by failure—than to take rank with those poor spirits who neither enjoy much nor suffer much—because they live in the gray twilight that knows no victory nor defeat.—Theodore Roosevelt.

## Lamb's Laugh

Junior was visiting a farm and saw a lamb for the first time. Being of a friendly nature he wanted to pet it, but, as he approached, the lamb bleated out a loud "Bahah." Junior drew back and cried out: "Oh, daddy, that lamb is laughing at me!"—Children, the Magazine for Parents.

## "Ladies"

I like immensely a lot of young women whom I should not think of calling ladies. They post-date the word. And when I hesitate to call a woman a lady I hesitate because the word is not good enough for her.—Katherine Fullerton, in Harper's Magazine.

## Record Strongest Man

The bulkiest strong man known to history for the past thousand years was the one who visited the United States—Hercules, champion Sumo wrestler of the world—weighing 450 pounds, who ate ten meals a day and could throw a gray horse with ease.

## Prevent Fires

Insurance is an investment in financial preparation for loss by fire, but not an investment in the protection. It will never bring back the homes, its treasures or its traditions. Actual fire prevention is the only insurance that watches over the home.

## Historic Date

December 10, 1492, marks the formal founding of the first European settlement to be laid in America. The settlement was originally named Hispaniola, after the Spanish. In the course of time, however, the name was changed to Haiti.

## Goes for All of Us

Armed with a little self-confidence, a sincere interest in others and an agreeable manner, any girl can put unpopularity to rest, Doris Blake tells us. That good-all-around recipe doesn't cost much to try.—Capper's Weekly.

## Governmental Basis

You cannot possibly have a broader basis for any government than that which includes all the people, with all their rights in their hands, and with an equal power to maintain their rights.—William Lloyd Garrison.

## Odd Photograph

An English photographer recently exhibited a picture that had been taken through the eye of a glowworm. The insect's eye had been so placed in the camera as to take the place of the lens.—Grit.

## Friendship's Reward

The most I can do for my friend is simply to be his friend. I have no wealth to bestow on him. If he knows that I am happy in loving him, he will want no other reward.—Thoreau.

## Home Life of the Ancients

Discoveries in an ancient tomb invariably disclose the fact that jewelry and furniture were abundant while the "comforts of home" were scarce.—Washington Star.

## Flame Draws the Moth

Nature is like that in everything. Nearly all of the poison plants that are "bad for you" are brightly colored and attractive.—New York Telegram.

## Fortunate Ones?

Some persons are very fortunate in being able to talk without putting themselves to the trouble of thinking, says the Detroit News.

## Their Only Lesson

Live and learn is good dope, but all a lot of fools learn by living is that they can't learn anything.—Cincinnati Enquirer.

## Friendship

Neither is life long enough for friendship. That is a serious and majestic affair.—Emerson

## Well Named

Quebracho, which holds the record for being the world's heaviest wood, means "ax breaker."

## Ancient Church Restored

After work extending over eighty years, the church at Great Yarmouth, England, has been completely restored. It was founded in 1196.

## SO MANY ALIASES, FORGOT OWN NAME

### Crook Apparently Puzzled for Some Time.

New York. A criminal of many aliases was being interrogated by detectives. Most crooks are satisfied with one or two, but this particular crook found it convenient to have six or seven fictitious names ready to use. And on different occasions he "had traveled," as the police say, under each of his names. In one city he assumed the name of Jim Jones and in another the name of Tom Smith.

His captors were fairly familiar with his numerous aliases, and the mention of any one of them recalled the picture of a short, thick fellow with a long nose and a pair of small, fishy eyes. A detective had written the aliases on a piece of paper. After studying them a moment he turned to the prisoner and asked gruffly: "Which of these names is your right one?"

The crook examined the list intently and appeared puzzled. "Most of 'em I know," he replied with a smile. "You see," he added apologetically, "I've been travelin' under these here names so long that I've clean forgot my right name. But it will come to me after a bit," and sure enough in soon recalled it. The name, however, was not among the aliases.

### Would Like to Forget.

"I think this fellow," said a detective, "was just pretending he did not remember his name. Indeed, he would like to forget it if he could, because he has been tried and convicted under that name for more offenses than he can remember. He is, like most experienced crooks, a masquerader. All crooks are masqueraders, in a sense, and go through life wearing a mask."

"After being initiated into the criminal fraternity the crook resolves to cast aside his own name and take some other one. His main reason for doing this is quite obvious; he desires to conceal his identity as much as possible. Only a fool, he argues, would use his own name in criminal operations. What a sweet thing it would be for the cops if every criminal used his right name when he went adventuring! Likewise, he has other reasons for not traveling under his own name. Though he may have fallen from grace, he has qualms about using a family name that heretofore has not been dragged in the mud. He does not care for himself, but he does not want to bring disgrace on his father and mother, who are poor but respectable. Why drag them into his troubles?"

"He decides to take a name, and while he is a criminal that name will suffice for his purpose. If he is caught no one will associate John Doe with John Smith. He will be arrested as John Doe, tried as John Doe and, if convicted and sentenced, he will go to the pen as John Doe, and no great harm will be done to anyone except to himself."

### Sure to Find Him Out.

"He does not pause to consider that no matter how artfully he may try to conceal his real identity, the police will find him out. They will investigate his past, and when they once begin such an investigation they will be pretty sure to dig up a lot of knowledge concerning himself and his antecedents."

"After being in the game a while the crook finds that having only one alias is insufficient. He discovers the name he has been using is becoming entirely too familiar—especially to his enemies, the cops. If you are a crook, it does not pay to advertise; accordingly, he assumes another name and lays aside the first alias until people begin to forget it. In time the second alias outlives its purpose and it becomes necessary to take a third name. And this explains why criminals frequently have several aliases."

"All of these aliases he finds useful. It may not be convenient to use the name of Jim Jones in New York, but the name may do very well in another city in which he is unknown. He would prefer, many times, not to have a name at all, but since everybody must follow the custom and have a name, he must have one. Therefore he carries in his head several aliases, any one of which he may assume at a moment's notice. These names mean a lot to him. Some of them recall pleasant memories; others recall scenes that he would much prefer to forget. He remembers what Shakespeare said about calling a rose by any other name and it would smell as sweet. Though he would like to believe this, he knows the cops have a long memory for names. No matter how frequently he changes his name, the cops seem to be able to discover him and drag him from obscurity."

## Freak Chickens Subject of Study by Zoologist

Philadelphia. Chickens with two wings and four legs and even with four wings and four legs, and a duckling equally strangely constituted, were studied by Dr. F. E. Childer, professor of zoology at West Virginia university, who described observations to the American Society of Zoology, meeting here.

The freakish external features of the birds were found to be coupled with odd internal structures. Four kidneys were found in some of the birds, double cloaca in all of them, and frequent variations in some of the digestive tubes. The gizzard, however, remained single, nor was there any evidence of duplicity in the heart or respiratory apparatus.

## HAS SALT TO LAST FOR MILLION YEARS

### Supply in Four States Insures Against Famine.

Washington.—Millions of years will elapse before the United States will suffer a shortage of salt such as that reported recently at Cuenca, Ecuador. It is estimated that 39,000,000,000,000 tons of salt, which would last 2,000,000 years at the present rate of consumption, are contained in a single deposit underlying an area 450 miles long and about 200 miles wide in portions of Kansas, Oklahoma, northwestern Texas and New Mexico. This is by far the largest known deposit in the world, and has scarcely been touched except in Kansas, where an extensive industry has been developed.

The shortage at Cuenca recalls the importance of salt in ancient times. The Germans believed the presence of salt in the soil gave it a peculiarly sacred character, and for salty streams they would wage war.

### Valuable in Ancient Times.

For centuries before the Christian era blocks of salt were used by districts of China bordering the ocean to pay revenue to the Chinese rulers. In China and Tibet the mineral vied with gold as a medium of exchange.

Salt is a luxury to some of the native tribes of Central Africa, particularly among the pygmies. Gifts of salt have made it possible for the white man to approach and study these jungle dwellers. Even the tusks of elephants pygmies kill, which are their prized possessions, are buried in the ground until they are traded for salt and tobacco.

While some salt is produced by evaporation of sea water in localities along the seaboard and in the vicinity of salt streams and lakes, most of our supply is extracted from deposits in the earth. This is done either by forcing water down holes reaching to the salt beds and evaporating the brine which is forced up and withdrawn, or by the systematic mining of the deposit.

The most famous mines are the Wieliczka mines in Galicia. They virtually constitute an underground city with their 45 miles of galleries, traversed by more than 30 miles of railroads, and their monuments, houses, churches, restaurants and railroad stations, all carved out of solid salt rock.

Even the massive, artistically patterned candeliers in numerous chapels and ballrooms are salt. There are subterranean rivers and lakes. One of the 16 lakes is navigable and a boat is provided which visitors may hire. The mines have been in operation since the Thirteenth century and a depth of 1,200 feet has been reached. They justify their classification among the lesser wonders of the world.

Of more than 7,000,000 tons of salt produced annually in the United States,

### Cleansing Mercury

The bureau of standards says that a simple way to remove dirt from mercury is to shake the mercury vigorously with some cane sugar, after which the metal is filtered off through a phial in the bottom of a paper cone. The whole operation may be repeated if necessary. Instead of filtering through a phial, the mercury may be squeezed through several thicknesses of cloth.

### Much Sugar in Corn

In a bushel of corn there are approximately 24 pounds of starch, and depending upon what the market demands the amount of sugar extracted from this starch varies from a few pounds to all of the 24. In actual commercial practice only 8 or 10 pounds of sugar are taken out of the average bushel of corn today, but the entire 24 pounds of starch could be converted into sugar if necessary.

### Should Use Discretion

Jud Tunkins says children should obey their parents and in some cases not try to imitate 'em.—Washington Star.

Michigan, New York, Ohio, Kansas, and Louisiana rank foremost. Michigan is slightly in the lead, with New York close on her heels. All of these states have deposits which show no indication of exhaustion.

### New York's Supply Large.

The New York deposit alone will supply the demand of this country for thousands of years, although extensive operations have been carried on for a century. The deposit underlies an area of 2,000 square miles in the central part of the state and is from 2 to 318 feet thick.

Although salt is used principally for cooking and seasoning, it plays an important part in the great world industries. Large quantities are consumed in meat packing, fish curing, dairying, tanning, refrigeration, pottery glazing in the enamel and pipe works, in the silk and textile industries, in softening, curbing and tanning hides, making pickles, and in many other industries. In the form of brine it is used in all chemicals containing a sodium base.

Every living thing would perish without salt, and a quantity is necessary to good health. Every tissue of the body has a small content of iodine which may be supplied or renewed by the consumption of salt.

Before the invention of the crock pot and the establishment of the kitchen our primitive ancestors ate raw meat in which was ample salt. The animal consumed salt, and their instinct directed them to salt water areas and overcropping salt deposits. But the cooking process destroyed a large percentage of the salt in meat and it became necessary for human consumers to make up the deficiency. Thus the salt shaker found its way to the dining table.

## Thousands of Rats Invade California Rice Farms

Sacramento, Calif.—Farmers of Glenn and Colusa counties are hoping that a piled plier will soon reach the district to exterminate thousands of rats which recently centered an invasion in the rice-growing communities. Norman Rubin of the state department of agriculture is leading the drive by distributing neatly wrapped packages of poison ment. He declared the rodent invasion was most unusual and that a warehouseman at Williams had trapped 3,000 rats. Rubin reported heavy losses to poultrymen as well as by rice and grain growers.

### Topsy-Turvy

San Francisco.—Pygmyland is topsy-turvy. Among the tribes in New Guinea visited by the Stirling expedition, men let their hair grow, women keep their cut short. Children stop smoking when they reach maturity.

### Otherwise All Right

New York.—Thomas F. Maxwell, Jr., heir of millions, thinks his wife is "a wonderful kid," but he and she are not a little temperamentally, and so they have separated. He advertises he will not be responsible for her debts, but is paying her \$1,000 a month. She was once his father's secretary.

## Device May Help Find Ships on Ocean's Bed

Tacoma, Wash.—Forgotten tragedies of the Pacific may soon be revealed by a device adapted from the hydrophone, which detects the grating sound of hulls on the ocean bed. Lieutenant Commander T. J. Meyers of the coast and geodetic survey is sounding the ocean floor up and down the Washington coast and plans to drag a number of locations to establish the origin of strange noises. The geodetic surveyors are working off the mouth of the Columbia river, a graveyard of old sailing vessels.

### FOR SALE REAL ESTATE

FOR RENT—Modern house on Ida avenue, Antioch. Apply Mrs. Joseph Savage, Antioch, Ill. (22p)

FOR RENT—80 acre farm for rent, near Hasset factory. 20 tons of hay on farm. Inquire of T. C. Loftus, Wilmet, Wis. Phone 461 Wilmet. (21-23c)

FOR SALE—Choice lot, over 5000 square feet, at Woodcrest, Channel Lake—on Channel. Very desirable. \$800 for quick sale. Part cash, balance terms. Otto E. Bruder, 6326 Cornelia Ave., Chicago. Phone Kildarg 8791. 35 c if.

### BOARD AND ROOM

Try the Banks' Rooming house for excellent board and room. Home comforts and furnace heat. Phone Antioch 213 J. or call South Main street, one block south of postoffice. 27 tf

### FOR SALE MISCELLANEOUS

FOR SALE—Two breed Duroc Jersey gilts. William Walker, phone 132-M-1, Lake Villa, Ill. (22p)

FOR SALE—Watch dog two and one half years old, price \$5.00, also Plymouth Rock cockerels from special mated stock, price \$1.50. A. S. Wilkinson, Lake Villa, Ill. Phone Round Lake 19-M-1. (21p)

FOR SALE—Several small plate glass show cases. Thread case; also kitchen range and laundry stove. Cheap. Chicago Footwear. (15tf.)

FOR SALE—B-flat Soprano Sax. Lyon and Healy, professional model. Good condition, cheap for quick sale. Inquire at News.

## WANT FARM!

Nearby; Price and terms must be right. Don't answer unless you mean business. Give full description, location, improvements and rock bottom price first letter. Box X c/o News, Antioch, Ill.

### Second Growth of Trees

The bureau of plant industry says that a second growth late in the season is a frequent occurrence with the cherry and the plum tree after a continuous dry spell. This second blooming may also indicate a diseased condition of the tree. If this has occurred only on one tree, it is indicative of a diseased condition, while if it is prevalent throughout the entire orchard, it is a result of weather conditions.

### White Russia's Population

White Russia comprises the six eastern districts of the former Muscovy province, with Poland on its western boundary. Its territory has been considerably enlarged, a number of contiguous districts of the Russian Soviet Socialist Federated Republics, inhabited by White Russians, having been added to it. Seventy per cent of its population are White Russians, the remainder being Poles and Jews.

### Chinese Exports

The chief exports of China are animals, beans, bristles for brushes, chinaware, earthenware and pottery, cotton, both raw and manufactured, fireworks, fish and fishing products, fruit, hemp, hides, mits and maiting, medicinal herbs, oil, paper, silk, vegetables, straw braid, sugar, tea, tobacco and wool.

### Longest Non-Navigable Rivers

The Platte river and its northern fork, which is about 1,250 miles in length, is the longest non-navigable river in the United States and perhaps the longest in the world. The Orange river in South Africa, which is 1,100 miles long, is perhaps the next longest non-navigable river.

### Ethiopia

The ancients vaguely called everything south of Egypt "Ethiopia" (the land of the dark races, or swarthy freed). It probably extended from about the twenty-fourth to the tenth degree of north latitude, while its limits to the east and west were doubtful.

### Historic Occasion

The first successful flight in which an airplane carried a man was made December 17, 1903, by Wilbur Wright of Dayton, Ohio. The flight was made at Kittyhawk, N. C., near the sea, where he and his brother, Orville, had been experimenting.

## Famous Roman Church

Lateran is the name of a church in Rome dedicated to St. John. It was originally a palace of the Lateran, a prominent Roman family, and was given to the bishop of Rome by the Emperor Constantine. Eleven councils of the Latin church have been held there.

## First on Glorious Roll

Stephen is considered the first Christian martyr. The account of his martyrdom is in Acts 7. His execution does not seem to have had the sanction of the Roman authorities, and therefore was illegal.

## Canadian Pearls

Pearls are sometimes found in oysters and clams taken in Canadian waters, but as a rule they are too small to be of commercial value. In shape they are usually spherical—like small shining shot.

## Sometimes Unfeeling

Poets described women as gentle, loving creatures, says the Great Bend Tribune, but watch one shake with grief as she watches a male pedestrian flee for safety after she has honked her horn.

## World's Largest Pearl

The largest pearl known is in the Beresford Hope collection at South Kensington, England. It is more than two inches in length and over four in circumference. It weighs 1,800 grains.

## Refrigerator Cars

Authorities differ somewhat as to when the refrigerator car was first used, but it is generally believed that it was first operated in 1897 between Chicago and New York city.

## Nodding the Head

This custom dates back to prehistoric times. It is supposed to be a survival of the primitive sign language which preceded spoken language.

## Sum of Human Wisdom

The wise man is but a clever infant, spelling letters from a hieroglyphical, prophetic book, the lexicon of which lies in eternity.—Caryle.

## Average Shave

A Birmingham (Ala.) barber estimates that it takes 133.3 feet of razor strokes to shave the average man, remarks the Dearborn Independent.

## Exist Without Water

The gazelle and llama never sweat, low water, according to an answered question in Liberty.

## And Have an Easy Mind

We can't all dwell on Easy street, but we can all live on the square.—Boston Transcript.

## Life Sure Is a Gamble

Shirley Sam says: "Life is just one wish after another that you'd done something else."

## The Real Hero

The real movie hero is the man that goes every night with his wife and children.

No Currency in Albania  
Albania has no currency of its own, using the coins of neighboring countries.
